GENERAL SERVICES ADMINISTRATION  
FEDERAL PROCUREMENT DATA SYSTEM (FPDS)  
RE-ENGINEERING PROGRAM OFFICE (FRPO)  
1800 F STREET, NW  
WASHINGTON, D.C. 20405

DATE: October 29, 2002

Subject: Request for Proposal (RFP) #GS00M02PDR0008

The General Services Administration (GSA) seeks solutions to the requirement described in this RFP. Offerors may submit multiple approaches and proposals.

The expected outcomes of Federal Procurement Data System - Next Generation (FPDS-NG) are:

- Streamline the collection of data about contracts, orders, and other procurement instruments
- Reduce the cost of collecting that data
- Facilitate sharing data across business functions
- Provide accurate, real time information for strategic decision making and planning.

FPDS-NG will not replace agency contract writing systems or e-commerce systems. However, the Government has an option at C.2.2 in the SOO where, if exercised, the FPDS-NG vendor will be tasked to assist agencies in adapting/modifying their contract writing/feeder systems in accordance with the FPDS-NG interface standards.

The Government contemplates award of a single Fixed Price Incentive type contract. Offerors may also propose performance incentives.

Questions are due 10 calendar days after the RFP is published in Federal Business Opportunities. Questions must be submitted to the Contracting Officer at [Michael.Jackson@GSA.GOV](mailto:Michael.Jackson@GSA.GOV). See Section L.

Sincerely,

Michael O. Jackson  
Contracting Officer

**B. Supplies or Services and Prices/Costs****B1. Contract Type**

The General Services Administration anticipates awarding a Fixed-Price Incentive type contract. Cost and performance incentives may be proposed. The anticipated period of performance is a base period of 3 years with 2 one year options plus a potential for earning up to 5 award term years. The total term of the contract will not exceed 8 years. Offerors may propose the areas for the incentive and the criteria metrics for determining if these incentives have been earned. Offerors may propose, in the pricing proposal, a milestone schedule for which progress payments may be made. For cost incentives, the Government anticipates a share ratio of 60/40 (Government/Contractor), for both cost overruns and underruns, whereby the selected vendor would share in cost savings and cost overruns 40 percent.

**B2. Schedule**Contract Line Item Number (CLIN) 0001

The Government requires that the system/service is operational to accept and validate data on October 1, 2003. The overall schedule will be determined based on the solution accepted by the Government. Approaches include (but are not limited to) those listed below. Offerors may propose multiple business approaches including, but not limited to, those listed below.

Business Approach 1: Contractor Owned and Operated Full Service. The contractor provides data collection, reporting, and other services to the Government. Development of a system with the required capabilities, maintenance and operation of the system is the responsibility of the contractor. No government facilities, equipment, etc., will be provided. The Government owns only the contract award data. System software and documentation must be escrowed with sufficient rights granted to the Government in the event Contractor is unable to fulfill its requirements under this contract.

Business Approach 2: Government Owned and Contractor Operated at Contractor Facility. The contractor provides the Government a system that meets all the functional requirements. Full system documentation is also provided to the government. The contractor hosts the system, provides operation, maintenance, and all data collection and associated services. The Government owns the contract award data and the data collection system.

Business Approach 3: Government Owned and Contractor Operated at Government Facility. The contractor provides the Government a system that meets all the functional requirements. Full system documentation is also provided to the government. The contractor provides and installs the system (hardware and software), provides operation, maintenance, and all data collection and associated services. The Government hosts the system and owns the contract award data and the data collection system software. The Contractor owns and maintains the hardware.

Business Approach 4: Government Owned and Operated. The contractor provides and installs at the Government facility a system (hardware and software) that meets all the functional requirements. Full system documentation is also provided to the government. The Government owns and hosts the system (hardware and software), owns the data, and is responsible for operation, maintenance, and for providing all associated services. The contractor will not provide system maintenance or upgrades, but will be responsible for fixing defects.

#### CLIN 0002

##### Option for Adapting/Modifying Individual Agency Contract Writing/Feeder Systems

In accordance with Statement of Objectives Task C.2.2, CLIN 0002 is hereby made an option CLIN whereby, if exercised by GSA, the GSA will allow other Government agencies to issue task orders to the selected FPDS-NG vendor to assist agencies in adapting/modifying their individual agency contract writing/feeder systems.

## **C – Statement of Objectives**

### **C.1 INTRODUCTION**

#### **C.1.1 Purpose**

The purpose of this acquisition is to acquire a new government-wide electronic data collection and management information dissemination system. The overall goals of this system are to reduce the overall cost of data collection and to provide timely and accurate management information by implementing a system that interoperates with agency electronic procurement systems that report data into the Government's central database and other electronic commerce systems.

#### **C.1.2 Background**

Public Law 93-400 established the requirement for agencies to report data into a federal procurement data system (FPDS). General Services Administration is the executive agent for the operation and maintenance of FPDS. Approximately 60 Executive Branch agencies currently report contract actions to the FPDS.

Now, contract and procurement transactions are reported using standard government forms that include an increasing list of data elements. These data are reported either interactively through a direct key interface or through batch processing using a serial text file. The batch processing requires data to pass through multiple sets of validations (bureau, agency, FPDS). Error corrections in batch processing are time consuming and costly.

FPDS also provides a web site enabling limited public query of information and produces ad hoc reports for the public upon request, for a fee.

Over the past 2-3 years, many agencies developed or procured electronic contract writing systems that are now capable of machine-to-machine interfaces. The FPDS-Next Generation (FPDS-NG) must enable more efficient electronic data collection and reporting by providing a real-time, online data collection facility and eventually eliminating the text batch interface through efficient use of machine-to-machine interfaces.

### **C.2 Scope**

The scope of this acquisition includes the following:

- Provide a full range of products and services to accurately and efficiently collect procurement and contracting data.

- Validate data collected to reduce errors in submitted information.
- Provide effective, timely data and reports to acquisition managers, Congress, and the public while reducing the overall cost to the taxpayer.
- Integrate data from various Government-owned sources
- Define an interface standard for contracting agency contract-writing or procurement systems.
- Provide end user support.

The resulting contract will NOT include the following:

- Developing or operating electronic contract writing/ procurement tracking systems for agencies that award contracts and feed data to the FPDS-NG.

### **C.2.1 Tasks**

The contractor shall provide a system or service with the performance-based capabilities described below. Build, deploy, and maintain an open standards infrastructure, compatible with the architecture described in Attachment J11, capable of collecting, validating and correcting, storing, reporting, and selling contract and procurement data. The following performance based characteristics are the Government's performance objectives.

#### **A) General Requirements**

Provide the capability to input and access data worldwide 24x7x365, except for scheduled downtime.

Browser based interfaces, tutorial and/or help materials, and help desk services shall comply with the requirements of Section 508 of the Rehabilitation Act of 1973, as amended.

Provide three data input methods to the agencies, sub-agencies, and contracting offices: batch transactions, real-time machine-to-machine transactions, and direct key entry via the Web interface. FPDS-NG must be able to accept multiple types of input from each agency.

Maintain the standard(s) for machine-to-machine interfaces and the file layouts for batch interfaces.

Provide methods for adding, changing, saving partially completed entries, and deleting data described in the data dictionary.

Date and time stamp each addition, change, and/or deletion made.

Provide a method for agency systems administrators to generate change transactions for individual or multiple selected transactions from the FPDS-NG database.

Provide one validation process to support all input methods. FPDS-NG will run the validation process against each submission before posting valid data to database. Do not allow duplicate entries or transactions to be posted to the database.

Data submitted by any input method that fails the validation rules shall not be posted to the database. The data containing errors must be available for correction for a time period set by the government from time to time.

Provide a process for deleting records that were found to contain errors and that were not corrected within the allowed time period.

Provide the capability for the FPDS-NG System Administrator to override FPDS-NG validation rules upon challenge of an error notice.

Return both plain language and coded error messages to the sending systems and to web users.

Maintain each transaction as a distinct record. Data validated and posted to the database shall not be physically deleted or overwritten or altered in any way except as provided in an approved quality assurance plan.

Track the source and history of all transactions.

## **B) Browser Based Interfaces**

Provide a web browser based interface for direct key entry, report generation, and query capability.

Web-based interfaces shall support commonly used browsers (such as Netscape 4.0, Internet Explorer 4.0, and Opera 5.0) without active components of any kind (including plug-ins, JavaScript, java applets, or scripting support), or use of persistent cookies. Documentation may be made available in formats in addition to HTML.

Provide report and query access to all historical and current procurement data (see reporting requirements below).

Provide welcome screen(s) that include information from registered users profile and other appropriate information.

FPDS-NG data entry screens will be standardized. However, dynamic customization may be required to support unique agency requirements and data variations. The intent is that, for approved variations in the data (defined in the data dictionary), the user will see only appropriate data entry fields and appropriate data values in lists.

Use best practices to achieve “user friendliness” which may include the following:

- Distinguish between mandatory and non-mandatory data fields.

- Provide on-line definitions and instructions to assist users to understand the requirement. Include the consequences of choosing each available processing option (e.g., consequences of pressing the “cancel” button). The definitions and instructions should be context sensitive and explain all options applicable to the data field.

- Provide maximum user flexibility for data entry for entries not having a list. For example, a currency field should not report an error if the user keys a \$ or a comma even though all numbers and a period are required.

- Provide a visual guide for users when there is a specific data format requirement. For example, a ZIP Code field could have #####-#### displayed to indicate that a 5+4 ZIP Code is required.

- Provide assistance in selecting data values such as pick list and URL's.

- Provide the capability to automatically derive other element values or limit selections based on values of higher level fields. For example, if a user selects Virginia as the state, only Virginia cities will appear in the city pick list.

- Normally, show plain language text instead of codes, abbreviations, or acronyms. For example, end users should be shown state names in a pick list and after the transaction is submitted the system will process a code (e.g., FIPS code) that represents that state.

When user is reporting a modification of a contract, delivery order, or purchase order, automatically display appropriate award data which may include the following: contract number, order number, contractor name, contractor address, contract/order award date and description of contract/order.

When creating a new transaction, pre-populate appropriate data fields from the user's profile.

Provide a template capability to allow easy entry of multiple transactions with similar data.

Provide hyperlinks to applicable websites to retrieve legislative and regulatory documents and hyperlinks to relevant sites.

As the first step in data entry, if the user enters transaction identification that is already in the system (posted to the database, found among the transactions stored in the error area, in the suspense area), notify the user and allow the user to take appropriate action.

Provide a suspense file for the user to store partially completed entries. If User's connection is lost before the action is completed, save and suspend any submitted intermediate data so the user can continue when they reconnect. Suspended transactions will be deleted after four weeks.

When a transaction is successfully posted to the database or saved in the suspense file, allow the user to print a confirmation that includes all the data submitted and, for a modification or change, all the data that was changed.

Return error messages real-time and allow the user to make corrections within the same session. Allow user to exit without making corrections.

Notify the user upon login of the number of suspended transactions and transactions with errors for which the user is responsible. Allow the user to retrieve any of these transactions and to work on them.

Provide a summary screen of transaction data for current action, initial award, and all modifications or changes for preview prior to final posting of a new transaction.

**C) Machine to Machine Interface**

Provide a machine-to-machine information exchange capability to interoperate with government agency contract writing and e-commerce systems and with other e-business systems using the standards and protocols contained in the Federal Enterprise Architecture. (See specific interoperability requirements below.) Provide an Interface Specification for use by agencies. The purpose of the Interface Specification is to provide information (technical information, standards, and specifications) that agencies and COTS suppliers will use to adapt their procurement systems to interoperate with the FPDS-NG machine-to-machine.

Provide a mechanism for receiving one or more transactions in a single data submission session.

Provide real time confirmation/acknowledgement of receipt and processing of data. The confirmation contains a receipt of acceptance or error messages.

Provide “web services” to support contract writing and e-commerce systems. See attachment J8.

The contractor will define a methodology that allows FPDS-NG to “push” changes to agency procurement systems (or agency FPDS-NG administrators) and enables agencies to incorporate the changes with minimal human intervention. Agencies must be able to change the data that is collected or to change the validation rules applied to data within 30 days following approval of the change by the government change control board.

**D) Batch Interfaces**

Provide and maintain a single interface (that is, a single format for each data transfer requirement) until such time as the government authorizes the removal of a specific batch requirement from FPDS-NG.

Provide automated standard processes to return receipts and error messages to agencies that submit procurement data. Agencies will be able to choose from among the standard processes.

Provide a process to permit agencies to download their procurement data records that contain errors.

Agencies that submit procurement data to FPDS-NG may correct records via the browser based interface within 10 business days of the original

submission and resubmit them for validation and posting to the database. The system must allow the agency FPDS-NG administrator to correct an error in a single field in multiple transactions at one time.

### **E) Reporting and Querying**

Provide an online capability for querying and reporting all the data elements, in any format, for all data contained in FPDS-NG (e.g., Standard, Ad-hoc, Summary, and Detailed reports). Provide the capability to include data from other systems when such systems have exposed the data for query. Provide the ability to save queries.

Advise users of the estimated time required to run queries.

The vendor shall generate and post the Federal Procurement Report (FPR) quarterly, within thirty calendar days following the end of a quarter.

Provide online access to the published annual historical FPR standard reports. Once published, these reports do not change.

Users will have the capability to export or download formatted reports or report data to other formats including (but not limited to) text, HTML, Rich Text, spreadsheets, and databases.

Provide state-of-the-art data analysis technology (e.g. OLAP and/or data mining).

Provide a method for identifying and producing standard reports similar to those listed in Attachment J5.

Reports should allow a choice of acronyms, abbreviations, codes (and legend) or plain language text.

For every report, provide an appendix showing selection criteria and the meaning of the report.

Provide capability for user to schedule periodic report creation and delivery.

The E-Business solution shall include a Report Check Out Process. Provide users the capability to select standard reports and define parameters for ad hoc reports and add their selections to a shopping cart. (Alternative approaches can be proposed.)

Provide one or more automated payment methods for users requesting reports.

Allow users to pay a fixed fee for each report.

Provide various subscription options.

Support foreign users by displaying equivalent prices in major foreign currencies. Final payments must be in U.S. dollars if payment is to the US government.

### **F) Help Desk and End User Support**

Create and maintain a Help Desk to handle and troubleshoot user problems. The minimum acceptable help desk must be available from 7am eastern time to 7pm pacific time government workdays. During September, help must be available until midnight pacific time. Provide the ability for users to submit requests for assistance 24x7.

Notify users of system changes, scheduled down time, operational announcements, and system capabilities. Allow individual users to opt out of most notifications.

Initiate resolution of all user requests within 4 working hours during Help Desk hours and, for requests received outside of Help Desk hours, within 4 working hours after start of Help Desk hours.

Provide training to users after FPDS-NG is deployed (e.g., Computer Based Training, or tutorial and searchable on-line user manual). Provide a training plan for agency administrators as FPDS-NG is deployed.

Provide technical advise to agency technical staff with regard to use of the machine-to-machine interfaces.

### **G) Transition**

Provide access to the data currently stored in FPDS. See Attachment J14.

The current FPDS may continue operations for up to 6 months to complete processing of transactions from prior to October 1, 2003.

**H) Performance Objectives**

Deliver a system that meets the following performance objectives:

- Store approximately 10-13 million transactions per year.
- Process every real-time data input transaction within one second allowing for peaks of at least 100 transactions per second.
- Initiate processing of every batch file within one minute. Process batches at not less than 10 transactions per second.
- Support up to 100,000 registered users.
- Support 1,000 to 10,000 concurrent users.
- Return on-line standard reports within 10 seconds exclusive of network transit time.
- Implement a program to prevent data loss (e.g., a backup and recovery system, mirrored systems).
- System down time will not exceed 8 hours per 12-month period (approximately 99.9% up time) exclusive of scheduled down time. Scheduled down time may occur not more frequently than once each month for a time period of up to 12 hours (noon Saturday to noon Sunday) with no scheduled down time in the second half of September.

Do not permit ad-hoc queries that would run longer than 1 hour. Direct user to the Help Desk when a query is estimated to run 1 hour or longer.

**I) Management and Administrative Objectives**

Management and administrative functions for the Federal Procurement Data Centers include, but are not limited to:

- Define and implement a software change control process.
- Provide full system and user documentation. All documentation will be available on-line. User documentation will be printable as well as viewable.
- Use state-of-the-art resource management tools for configuration management, manage projects, meet incentive objectives, measure performance, etc.
- Maintain the FPDS-NG website
- Prepare special reports for Congress, GAO, and other entities as requested.
- Provide liaison staff to other agencies to monitor and support the submission of data.
- Provide a process to disseminate information (policy and other changes) to agencies in a timely manner

- Develop a marketing plan to promote the FPDS-NG and to disseminate info to agencies and the public on FPDS-NG products and services.
- Work with agencies that submit procurement data to FPDS-NG to switch from using the batch interface to using the machine-to-machine interface.
- Develop and implement a quality assurance plan that verifies the accuracy, completeness, and correctness of data submission and tables used for verification. This may also include field audits. Reports of findings should be disseminated with recommendations for corrective actions.
- Provide administrative and technical support to the Change Control Board, the FPDS-NG Advisory Board, etc. This may also include research to define changes in data elements, changes in reporting procedures, drafting changes to the FPDS-NG Reporting Manual, etc.

### **J) Security Objectives**

Authenticate users and computer systems having machine-to-machine interfaces with FPDS-NG. This process will control and manage user permissions (read and write capabilities to FPDS-NG).

The Integrated Acquisition Environment has specific requirements for user authentication. Please see Attachment J9.

Define user rights. User Levels include:

- a) Public (no authentication required, access to standard reports and read-only web services)
- b) Public (authentication required, required to purchase reports)
- c) Data Submitter (may use the direct key entry interface)
- d) Contracting Office Manager (may use a management interface intended for managing attributes of one or more contracting offices)
- e) Agency FPDS-NG Administrator /Sub-Agency Manager (may designate Contracting Office Managers, may use a management interface intended for managing attributes of an agency)

f) Government Wide Manager (may designate Agency FPDS-NG Administrators, may use an interface intended for overall non-technical system management)

g) FPDS-NG System Administrator

h) Agency Procurement System (machine-to-machine interface only, may use protected interfaces to submit data)

Implement security controls to prevent unauthorized access to FPDS-NG.

Include security tools to prevent data from being altered during transmission.

Implement security controls to prevent unauthorized changes to the data maintained in the database.

Use "Best Business Practices" to ensure system availability, reliability and accessibility.

Implement a method for security monitoring and incident reporting. Report each occurrence to the government.

Ensure FPDS-NG is not a security risk for e-systems with which it communicates.

Process and store user profile information securely and encrypt sensitive data (e.g., passwords, social security numbers, taxpayer identification numbers).

System management shall comply with the requirements of National Information Assurance Certification and Accreditation Process (NIACAP). Therefore, security costs shall be given a separate accounting and procedures shall meet the procedural requirements of NIACAP.

Periodically, the government will assess the adequacy of security measures and may employ another company to perform the assessment. The assessment may include any and all of the following: on-site visits, procedure reviews, disaster preparedness evaluation, probing inside and outside the contractor's firewall(s), and other such measures as the government deems necessary.

Attachment J16 is provided by the GSA Office of the Chief Information Officer. The documents referenced therein may not be accessible by the public. Offerors must request copies from the Contracting Officer. FPDS-NG does not contain any classified information. GSA does not place any restriction on use or dissemination of procurement data

(except as noted in the data dictionary). The following document may be retrieved from the GSA web site:

CIO 2160.2 – available by searching [www.gsa.gov](http://www.gsa.gov)

When requesting other documents, the request must include a statement similar to the following:

"<Company Name> acknowledges that the GSA security documents being requested/provided are sensitive documents that may only be disclosed on a 'Need To Know' basis; it agrees to protect such documents and not to disclose them except on a need to know basis; further it agrees to destroy all copies of such documents when they are no longer needed."

### **K. Interoperability**

The Government requires maximum flexibility to accommodate interoperability with other systems. For example, adding and changing data elements, using an external business information exchange, or adding communications capability. The GSA eGov Architectural Requirements document (Attachment J11) contains specific requirements in this area.

The diagram in Attachment J9 illustrates the expected interoperability requirements for FPDS-NG. Nothing in this contract shall be construed as a requirement that all of the expected interoperability requirements shall be implemented or that other interoperability requirements may not be implemented. Any requirement to implement a new interoperability requirement shall be considered to be within the scope of the contract, subject to the Changes Clause.

The following interoperability requirements are included in the base contract:

CCR/Business Partner Network  
Automatic Contract Writing System  
eCatalog/GWAC Web Site

Interoperability with other systems identified in Attachment J9 may be required at a later date, subject to the Changes Clause. These systems include:

FedBizOpps  
Purchase Card Data

Past Performance Data Base  
Fund Transaction Exchange

The item identified in Attachment J9 as “JFMIP/PEC Data Elements” is a historical reference to the source of the requirements and a general requirement for operability with financial systems and does not represent any specific interoperability requirement.

**C.2.2 Option for Adapting/Modifying Individual Agency Contract Writing/Feeder Systems**

The offeror may be tasked to adapt/modify individual agency contract writing/feeder systems in accordance with the FPDS-NG interface standards. The offeror should propose a methodology and pricing for accomplishing this requirement.

**C.3            ATTACHMENTS**

- J1 - FPDS-NG Data Dictionary

**D. Packaging and Marking**

All deliverable contract items shall be packaged in accordance with established commercial practices to ensure safe delivery at destination.

## **E. Inspection and Acceptance**

This solicitation incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this address:

<http://www.arnet.gov/far/>

NOTICE: The following contract clauses are hereby incorporated by reference:

<u>NUMBER</u>	<u>TITLE</u>	<u>DATE</u>
52.246-2	INSPECTION OF SUPPLIES-FIXED PRICE	AUG 1996
52.246-2	INSPECTION OF SUPPLIES-FIXED PRICE (ALT I)	JUL 1985
52.246-4	INSPECTION OF SERVICES-FIXED PRICE	AUG 1996
52.246-10	INSPECTION OF FACILITIES	APR 1984

### **E.1 Standards of Performance and Acceptance**

During demonstration/validation the Government will employ experts for independent validation of Quality Assurance Plan factors, especially the following:

- Contractor's Test And Acceptance Plan
- Implementation Of Functional Requirements
- Proper Representation Of Data
- Migration Of Existing Data
- Proper Implementation Of Validations
- Machine Interfaces
- Human Interfaces (Including "User Friendliness" And Section 508 Compliance)
- Compliance With Security Requirements
- Implementation Of "Best Practices" For Reliability
- Compliance With Development Procedures (Especially Documentation Of Design And Operations)

After the demonstration, the Government will require a one month period for obtaining management approval under NIACAP procedures to accept and to operate the system.

Upon hosting at the Government or contracting site, the Government will again verify security implementation and perform penetration testing before beginning operations.

Upon installation on the production facilities and successful testing, the Government will accept the system and begin operations.

During operation and maintenance, performance will be evaluated in accordance with the accepted Quality Assurance Plan.

**F. Deliveries and Performance****F.1 FAR 52.252-2 Clauses Incorporated by Reference (Feb 1998)**

**G. Contract Administration Data****G.1 FAR 52.201-70 Contracting Officer's Technical Representative (COTR) Designation and Authority (Sep 1997)**

- (a) The contracting officer's technical representative will be designated at the time of award.
- (b) Performance of work under this contract shall be subject to the technical direction of the COTR identified above, or a representative designated in writing. The term "technical direction" includes, without limitation, direction to the contractor that directs or redirects the labor effort, shifts the work between work areas or locations, fills in details and otherwise serves to ensure that tasks outlined in the work statement are accomplished satisfactorily.
- (c) Technical direction must be within the scope of the specification(s)/work statement. The COTR does not have authority to issue technical direction that:
  - (1) constitutes a change of assignment or additional work outside the specification(s)/work statement;
  - (2) constitutes a change as defined in the clause entitled "Changes";
  - (3) in any manner causes an increase or decrease in the contract price, or the time required for contract performance;
  - (4) changes any of the terms, conditions, or specification(s)/work statement of the contract;
  - (5) interferes with the contractor's right to perform under the terms and conditions of the contract; or,
  - (6) directs, supervises or otherwise controls the actions of the contractor's employees.
- (d) Technical direction may be oral or in writing. The COTR shall confirm oral direction in writing within five workdays, with a copy to the contracting officer.
- (e) The contractor shall proceed promptly with performance resulting from the technical direction issued by the COTR. If, in the opinion of the contractor, any direction of the COTR, or his/her designee, falls within the limitations in (c), above, the contractor shall immediately notify the contracting officer no later than the beginning of the next Government work day.

- (f) Failure of the contractor and the contracting officer to agree that technical direction is within the scope of the contract shall be subject to the terms of the clause entitled "Disputes."

## **G.2 Contracting Officer's Authority**

The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract. In the event the Contractor affects any changes at the direction of any person other than the Contracting Officer, the changes will be considered to have been made without authority and no adjustment will be made in the contract price or schedule to cover any increase in costs incurred as a result thereof. The Contracting Officer shall be the only individual authorized to accept nonconforming work, waive any requirement of the contract, and/or modify any term or condition of the contract. The Contracting Officer is the only individual who can legally obligate Government funds. No costs chargeable to the proposed contract can be incurred before receipt of a fully executed contract or specific authorization from the Contracting Officer.

## **G.3 Subcontracts/Consultant Arrangements**

- (a) When so required by FAR Part 44, the offeror's proposal shall identify all subcontracts/consultant arrangements proposed. Specifically, the following information shall be provided to the Contracting Officer:
  - (1) Company name of each subcontractor, or the individual name in the case of independent consultants;
  - (2) Names of each subcontractor corporate officers;
  - (3) Name of each subcontractor's key personnel for this contract effort, including each individual's level of effort; and
  - (4) Scope of work to be performed by each subcontractor/ consultant.
- (b) Furthermore, throughout the term of this contract, the Contractor shall obtain prior written authorization from the Contracting Officer for any additions, deletions or changes in subcontract/consultant arrangement entered into for the purpose of performing this contract effort. The Contractor shall furnish the Contracting Officer with the above-specified items of information for any subcontract/consultant arrangement that the Contractor proposed subsequent to contract award. The government may consider revision to this requirement if the contractor has a government approved purchasing system in accordance with FAR Part 44.

- (c) The General Services Administration reserves the right to request the contractor to terminate any subcontractors, individual subcontractor employees, subcontractor principals, or consultants, for malfeasance or other appropriate cause (e.g., theft, criminal record(s), ties to organized crime, etc.).
- (d) The provisions of this clause do not preclude any requirements regarding subcontracts that may be set forth elsewhere in this solicitation/contract.
- (e) Questions regarding this requirement shall be directed to the Contracting Officer.

#### **G.4 Invoice/Voucher Address**

One original and one (1) copy of the invoice/voucher document shall be submitted to the finance center at the address shown in block 25, Standard Form 33. Two copies shall be mailed to the Contracting Officer's Technical Representative at the following address:

To be designated at time of award.

## H. Special Contract Requirements

### H.1 FAR 52.219-70 SF 294 and SF 295 Reporting (Jul 1998)

In accordance with the clause entitled “Small, Small Disadvantaged and Women-Owned Small Business Subcontracting Plan” in Section I and the contract schedule, SF 294 and SF 295 reports shall be submitted to the following personnel:

ADDRESSEE	SUBMIT SF 294	SUBMIT SF 295
Contracting Officer (Address shown on front of contract)	Original	Original
GSA, OED Boyd Rutherford 1800 F Street, Room 6029 Washington, DC 20405	Copy	Copy

### H.2 Key Personnel

(a) The key personnel specified in this contract are considered to be essential to the work being performed hereunder. Prior to diverting any of the specified individuals to other programs, the Contractor shall notify the Contracting Officer reasonably in advance and shall submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on the program.

No diversion shall be made by the Contractor without the written consent of the Contracting Officer; provided, that the Contracting Officer may confirm in writing such diversion and such confirmation shall constitute the consent of the Contracting Officer dictated by this clause. As appropriate, the list of key personnel may be modified during the term of the contract to either add or delete personnel.

(b) The Contractor shall assign to this contract the following key personnel:

PERSONNEL	TITLE
-----	-----
(insert names)	(insert position titles)

**To be determined at time of award**

(c) The Contractor agrees to assign to the contract those persons who are necessary to fill the requirements of the contract whose resumes are submitted

with its proposal and who are specifically defined as key personnel. No substitutions shall be made except in accordance with this clause.

(d) The Contractor agrees that during the first year of the contract, no personnel substitutions will be permitted unless such substitutions are necessitated by an individual's sudden illness, death, or termination of employment. In the event of any of these occurrences, the Contractor shall notify the Contracting Officer promptly and provide the information required by paragraph E below.

All requests for proposed substitutions must be submitted, in writing, to the Contracting Office at least fifteen (15) days, (thirty (30) days if security clearances are to be obtained) in advance of the proposed substitutions. The requests for substitutions must provide the information required by paragraph (e) below

(e) All requests for substitutions must provide a detailed explanation of the circumstances necessitating the proposed substitutions, a complete resume for each proposed substitute and any other information requested by the Contracting Officer. All proposed substitutes must have qualifications that are equal to or better than the qualifications of the person being replaced as related to the contract work. The Contracting Officer shall evaluate such requests and promptly notify the Contractor whether the proposed substitution has been approved or disapproved.

### **H.3 Publicizing Awards**

Under no circumstances shall the Contractor, or anyone acting on behalf of the Contractor, refer to the supplies, services, or equipment furnished pursuant to the provisions of this contract in any news release or commercial advertising without first obtaining explicit written consent to do so from the Contracting Officer. The Contractor agrees not to refer to awards in commercial advertising in such a manner as to state or imply that the product or service provided is endorsed or preferred by the Federal Government or is considered by the Government to be superior to other products or services.

### **H.4 Preference for Use of Paper and Paper Products Containing Recovered Material Content**

The Government and its bureaus strongly support the use of paper and paper products with the maximum extent of recovered material content. Although the contractor is not required to utilize paper and paper products containing the percentage of recovered material content as specified in the Government Affirmative Procurement Program for Items with Recovered Material Content,

the contractor is encouraged to utilize paper and paper products with recovered material content to the maximum extent possible.

### **H.5 Government Property**

To be determined at time of award.

### **H.6 Disclosure of Information**

Any information made available to the Contractor by the Government shall be used only for the purpose of carrying out the provisions of this contract and shall not be divulged or made known in any manner to any persons except as may be necessary in the performance of the contract. In performance of this contract, the Contractor assumes responsibility for protection of the confidentiality of Government records and shall ensure that all work performed by its subcontractors shall be under the supervision of the Contractor or the Contractor's responsible employees. Each officer or employee of the Contractor or any of its subcontractors to whom any Government record may be made available or disclosed shall be notified in writing by the Contractor that information disclosed to such officer or employee can be used only for a purpose and to the extent authorized herein. Further disclosure of any such information, by any means, for a purpose or to an extent unauthorized herein, may subject the offender to criminal sanctions imposed by 18 U.S.C. 641. That section provides, in pertinent part, that whoever knowingly converts to their use or the use of another, or without authority, sells, conveys, or disposes of any record of the United States or whoever receives the same with intent to convert it to their use or gain, knowing it to have been converted, shall be guilty of a crime punishable by a fine of up to \$10,000, or imprisoned up to ten years, or both.

### **H.7 Travel**

Travel and per diem rates for reimbursement purposes shall be in accordance with acceptable accounting procedures and Federal Acquisition Regulation (FAR) 31.205-46.

### **H.8 Technology Refreshment and Upgrades**

The Government may solicit, and the Contractor is encouraged to propose independently, technological changes to save money, to improve performance, or to satisfy increased data processing requirements.

**H.9 Work at Government Installation**

If work is required at a Government facility, the Contractor shall comply with the rules for that facility.

**H.10 Award Term Provision**

The following provision is applicable only if an award term incentive is an element of the negotiated incentive plan.

The contractor can earn up to five one year extensions to the term of this contract by providing excellent service during the basic years of the contract, on a one-for-one basis, as provided in the bid schedule, the Statement of Objectives, and Attachment 13, "Award Term Plan," and as follows:

The Contracting Officer (CO)/Term Determining Official (TDO) will unilaterally determine, on a yearly basis, the extent to which the contractor has provided such excellent service, and therefore, whether an award-term extension has been earned. Within 60 days after the end of the base period, if the TDO determines that an award term is to be awarded, the contract will be modified to reflect the addition of the award term earned, subject to the availability of funds at that time. The TDO's decision in this matter will not be subject to the Disputes Clause.

Interim evaluations of contractor performance shall be conducted at 6 month intervals throughout the effective period of the contract, and the contractor shall be advised in writing as to the strengths and weaknesses in performance exhibited during that preceding 6 month period. No formal ratings of contractor performance will be assigned at this time, but the strengths/weaknesses referenced in this interim evaluation will be considered in the TDO's subsequent determination of any award term earned at the end of that specific contract period.

The contractor is required to submit to the Government a written (10 page maximum) self-evaluation of his performance prior to the TDO's interim or final evaluations referenced above.

If the contractor earns an award term in accordance with the above, he shall provide a detailed cost proposal for that particular award term to the CO for review and negotiation of a final price not later than 24 months prior to scheduled commencement of that award-term. In no event shall the final negotiated price for any award term exceed the ceiling price established in Section B of this contract for that period. As stated in Section B, the contractor may earn a maximum of 5 additional years under this contract, conditioned upon the following:

- a. a continuing agency need for the contract services,
- b. Congressional authorization and appropriation of funds.
- c. The continuing responsibility of the contractor, as defined in FAR Section 9, and
- d. The contractor's providing excellent service during each period of performance, as defined in Attachment 13, Award Term Plan.

If the contractor has failed to earn an award term by the end of the second year of contract performance, the CO may declare that the award term incentive provisions of this contract are void.

If, after earning its first award term, the contractor fails to earn an award term in any succeeding year of contract performance, the CO may cancel any award-terms that the contractor has earned, but that have not commenced, and declare that the award-term incentive provisions of this contract are void.

If the CO determines that the contractor's performance does not conform to any material requirement of the contract at any time, then the CO may cancel any award-terms the contractor has earned, but that have not commenced, and declare that the award-term incentive provisions of the contract are void. The CO's decision in this regard is independent of any decision whether to terminate the contract for convenience or default.

If, at any time prior to the commencement of any award-term extension, the Government determines that it has no further need for the contracted services, or if Congress fails to appropriate funds for the services, then the CO may cancel any award-terms that the contractor has earned, and declare that the award-term incentive provisions of the contract are void.

If, prior to commencement of any award-term extension, the CO determines that the contractor is not a responsible contractor, as defined in FAR Section 9, then the CO may cancel any award terms that the contractor has earned, but that have not commenced, and declare that the award-term incentive provisions of the contract are void.

The contractor may cancel any award term that it has earned by giving written notice to the CO not less than 18 months prior to the date on which the award-

term is scheduled to begin. If the contractor chooses to cancel any award term, the CO will issue a bilateral contract modification canceling all subsequent award-terms that the contractor has earned, and declare that the award-term provisions of the contract are void.

The cancellation of any award terms, or the voiding of the award-term incentive for any of the reasons set forth in this clause shall not be considered either a Termination for Convenience or Termination for Default, and shall not entitle the contractor to any equitable adjustment, or any other compensation under the Termination clauses contained in this contract.

Notwithstanding the provisions of this clause, the government retains the right to terminate this contract for convenience or default in accordance with the clauses set forth in Section I.

### **H.11 Incentives**

The total amount of funds for this effort is \$5.6 million. The contractor's total price, cost plus all incentives, must be within this budgeted amount. The final incentives plan will be negotiated before contract award.

### **H.12 Post Award Conference**

Contractor shall conduct a post award conference with the FPDS-NG Program Manager within 10 working days after contract award.

### **H.13 Section 508 Compliance**

Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794d) requires that when Federal agencies develop, procure, maintain, or use electronic and information technology, Federal employees with disabilities have access to and use of information and data that is comparable to the access and use by Federal employees who are not individuals with disabilities, unless an undue burden would be imposed on the agency. Section 508 also requires that individuals with disabilities, who are members of the public seeking information or services from a Federal agency, have access to and use of information and data that is comparable to that provided to the public who are not individuals with disabilities, unless an undue burden would be imposed on the agency.

The Architectural and Transportation Barriers Compliance Board (Access Board) has added pertinent coverage in the form of Part 1194 to Chapter XI of

title 36 of the Code of Federal Regulations. Specifically, the technical standards provided at § 1194.21, Software Applications and Operating Systems, and 1194.22 Web-based Intranet and Internet Information and Applications apply to this acquisition.

## I.2 Reserved

### I.3 52.216-16 Incentive Price Revision – Firm Target (Oct 1997)

(a) *General.* The supplies or services identified in the Schedule as Items specified in the RFP in Section B for development and implementation are subject to price revision in accordance with this clause; provided, that in no event shall

the total final price of these items exceed the ceiling price of \$5.6 million dollars (\$5,600,000.00) for cost and incentive payments. Any supplies or services that are to be (1) ordered separately under, or otherwise added to, this contract and (2) subject to price revision in accordance with the terms of this clause shall be identified as such in a modification to this contract.

(b) *Definition.* "Costs," as used in this clause, means allowable costs in accordance with Part 31 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract.

(c) *Data submission.*

(1) Within 10 (ten) days after the end of the month in which the Contractor has delivered the last unit of supplies and completed the services specified by item number in paragraph (a) of this clause, the Contractor shall submit in the format of Table 15-2, FAR 15.408, or in any other form on which the parties agree-

- (i) A detailed statement of all costs incurred up to the end of that month in performing all work under the items;
- (ii) An estimate of costs of further performance, if any, that may be necessary to complete performance of all work under the items;
- (iii) A list of all residual inventory and an estimate of its value; and
- (iv) Any other relevant data that the Contracting Officer may reasonably require.

(2) If the Contractor fails to submit the data required by paragraph (c)(1) of this clause within the time specified and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the data submittal period, the amount of the excess shall bear interest, computed from the date the data were due to the date of repayment, at the rate established in accordance with the Interest clause.

(d) *Price revision.* Upon the Contracting Officer's receipt of the data required by paragraph (c) of this clause, the Contracting Officer and the Contractor shall promptly establish the total final price of the items specified in (a) of this clause by applying to final negotiated cost an adjustment for profit or loss, as follows:

(1) On the basis of the information required by paragraph (c) of this clause, together with any other pertinent information, the parties shall negotiate the total final cost incurred or to be incurred for supplies delivered (or services performed) and accepted by the Government and which are subject to price revision under this clause.

(2) The total final price shall be established by applying to the total final negotiated cost an adjustment for profit or loss, as follows:

- (i) If the total final negotiated cost is equal to the total target cost, the adjustment is the total target profit.
- (ii) If the total final negotiated cost is greater than the total target cost, the adjustment is the total target profit, less 40 percent of the amount by which the total final negotiated cost exceeds the total target cost.

(iii) If the final negotiated cost is less than the total target cost, the adjustment is the total target profit plus 40 percent of the amount by which the total final negotiated cost is less than the total target cost.

(e) *Contract modification.* The total final price of the items specified in paragraph (a) of this clause shall be evidenced by a modification to this contract, signed by the Contractor and the Contracting Officer. This price shall not be subject to revision, notwithstanding any changes in the cost of performing the contract, except to the extent that-

(1) The parties may agree in writing, before the determination of total final price, to exclude specific elements of cost from this price and to a procedure for subsequent disposition of those elements; and

(2) Adjustments or credits are explicitly permitted or required by this or any other clause in this contract.

(f) *Adjusting billing prices.*

(1) Pending execution of the contract modification (see paragraph (e) of this clause), the Contractor shall submit invoices or vouchers in accordance with billing prices as provided in this paragraph. The billing prices shall be the target prices shown in this contract.

(2) If at any time it appears from information provided by the contractor under paragraph (g)(2) of this clause that the then-current billing prices will be substantially greater than the estimated final prices, the parties shall negotiate a reduction in the billing prices. Similarly, the parties may negotiate an increase in billing prices by any or all of the difference between the target prices and the ceiling price, upon the Contractor's submission of factual data showing that final cost under this contract will be substantially greater than the target cost.

(3) Any billing price adjustment shall be reflected in a contract modification and shall not affect the determination of the total final price under paragraph (d) of this clause. After the contract modification establishing the total final price is executed, the total amount paid or to be paid on all invoices or vouchers shall be adjusted to reflect the total final price, and any resulting additional payments, refunds, or credits shall be made promptly.

(g) *Quarterly limitation on payments statement.* This paragraph (g) shall apply until final price revision under this contract has been completed.

(1) Within 45 days after the end of each quarter of the Contractor's fiscal year in which a delivery is first made (or services are first performed) and accepted by the Government under this contract, and for each quarter thereafter, the Contractor shall submit to the contract administration office (with a copy to the contracting office and the cognizant contract auditor) a statement, cumulative from the beginning of the contract, showing-

(i) The total contract price of all supplies delivered (or services performed) and accepted by the Government and for which final prices have been established;

(ii) The total costs (estimated to the extent necessary) reasonably incurred for, and properly allocable solely to, the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established;

(iii) The portion of the total target profit (used in establishing the initial contract price or agreed to for the purpose of this paragraph (g)) that is in direct proportion to the supplies delivered (or services performed) and accepted by the Government and for which final prices have not been established-increased or decreased in accordance with paragraph (d)(2) of this clause, when the amount stated under subdivision (g)(1)(ii) of this clause differs from the aggregate target costs of the supplies or services; and

(iv) The total amount of all invoices or vouchers for supplies delivered (or services performed) and accepted by the Government (including amounts applied or to be applied to liquidate progress payments).

(2) Notwithstanding any provision of this contract authorizing greater payments, if on any quarterly statement the amount under subdivision (g)(1)(iv) of this clause exceeds the sum due the Contractor, as computed in accordance with subdivisions (g)(1)(i), (ii), and (iii) of this clause, the Contractor shall immediately refund or credit to the Government the amount of this excess. The Contractor may, when appropriate, reduce this refund or credit by the amount of any applicable tax credits due the Contractor under 26 U.S.C. 1481 and by the amount of previous refunds or credits effected under this clause. If any portion of the excess has been applied to the liquidation of progress payments, then that portion may, instead of being refunded, be added to the unliquidated progress payment account consistent with the Progress Payments clause. The Contractor shall provide complete details to support any claimed reductions in refunds.

(3) If the Contractor fails to submit the quarterly statement within 45 days after the end of each quarter and it is later determined that the Government has overpaid the Contractor, the Contractor shall repay the excess to the Government immediately. Unless repaid within 30 days after the end of the statement submittal period, the amount of the excess shall bear interest, computed from the date the quarterly statement was due to the date of repayment, at the rate established in accordance with the Interest clause.

(h) *Subcontracts*. No subcontract placed under this contract may provide for payment on a cost-plus-a-percentage-of-cost basis.

(i) *Disagreements*. If the Contractor and the Contracting Officer fail to agree upon the total final price within 60 days (or within such other period as the Contracting Officer may specify) after the date on which the data required by paragraph (c) of this clause are to be submitted, the Contracting Officer shall promptly issue a decision in accordance with the Disputes clause.

(j) *Termination*. If this contract is terminated before the total final price is established, prices of supplies or services subject to price revision shall be established in accordance with this clause for (1) completed supplies and services accepted by the Government and (2) those supplies and services not terminated under a partial termination. All other elements of the termination shall be resolved in accordance with other applicable clauses of this contract.

(k) *Equitable adjustment under other clauses*. If an equitable adjustment in the contract price is made under any other clause of this contract before the total final price is established, the adjustment shall be made in the total target cost

and may be made in the maximum dollar limit on the total final price, the total target profit, or both. If the adjustment is made after the total final price is established, only the total final price shall be adjusted.

(l) *Exclusion from target price and total final price.* If any clause of this contract provides that the contract price does not or will not include an amount for a specific purpose, then neither any target price nor the total final price includes or will include any amount for that purpose.

(m) *Separate reimbursement.* If any clause of this contract expressly provides that the cost of performance of an obligation shall be at Government expense, that expense shall not be included in any target price or in the total final price, but shall be reimbursed separately.

(n) *Taxes.* As used in the Federal, State, and Local Taxes clause or in any other clause that provides for certain taxes or duties to be included in, or excluded from, the contract price, the term "contract price" includes the total target price or, if it has been established, the total final price. When any of these clauses requires that the contract price be increased or decreased as a result of changes in the obligation of the Contractor to pay or bear the burden of certain taxes or duties, the increase or decrease shall be made in the total target price or, if it has been established, in the total final price, so that it will not affect the Contractor's profit or loss on this contract.

#### **I.4 52.219-4 Notice of Price Evaluation Preference for HUBZone Small Business Concerns (Jan 1999)**

(a) *Definition.* "HUBZone small business concern," as used in this clause, means a small business concern that appears on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration.

(b) *Evaluation preference.*

(1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except-

(i) Offers from HUBZone small business concerns that have not waived the evaluation preference;

(ii) Otherwise successful offers from small business concerns;

(iii) Otherwise successful offers of eligible products under the Trade Agreements Act when the dollar threshold for application of the Act is exceeded (see 25.402 of the Federal Acquisition Regulation (FAR)); and

(iv) Otherwise successful offers where application of the factor would be inconsistent with a Memorandum of Understanding or other international agreement with a foreign government.

(2) The factor of 10 percent shall be applied on a line item basis or to any group of items on which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor.

(3) A concern that is both a HUBZone small business concern and a small disadvantaged business concern will receive the benefit of both the HUBZone small business price evaluation preference and the small disadvantaged business price evaluation adjustment (see FAR clause 52.219-23). Each

applicable price evaluation preference or adjustment shall be calculated independently against an offeror's base offer. These individual preference amounts shall be added together to arrive at the total evaluated price for that offer.

(c) *Waiver of evaluation preference.* A HUBZone small business concern may elect to waive the evaluation preference, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply if the offeror has waived the evaluation preference.

o Offeror elects to waive the evaluation preference.

(d) *Agreement.* A HUBZone small business concern agrees that in the performance of the contract, in the case of a contract for-

(1) Services (except construction), at least 50 percent of the cost of personnel for contract performance will be spent for employees of the concern or employees of other HUBZone small business concerns;

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern or other HUBZone small business concerns;

(3) General construction, at least 15 percent of the cost of the contract performance incurred for personnel will be will be spent on the concern's employees or the employees of other HUBZone small business concerns; or

(4) Construction by special trade contractors, at least 25 percent of the cost of the contract performance incurred for personnel will be spent on the concern's employees or the employees of other HUBZone small business concerns.

(e) A HUBZone joint venture agrees that in the performance of the contract, the applicable percentage specified in paragraph (d) of this clause will be performed by the HUBZone small business participant or participants.

(f) A HUBZone small business concern nonmanufacturer agrees to furnish in performing this contract only end items manufactured or produced by HUBZone small business manufacturer concerns. This paragraph does not apply in connection with construction or service contracts.

### **I.5 52.219-23 Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns (May 2001)**

(a) *Definitions.* As used in this clause-

"Small disadvantaged business concern" means an offeror that represents, as part of its offer, that it is a small business under the size standard applicable to this acquisition; and either-

(1) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR part 124, subpart B; and

(i) No material change in disadvantaged ownership and control has occurred since its certification;

(ii) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not

exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(iii) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PRO-Net).

(2) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR part 124, subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted. In this case, in order to receive the benefit of a price evaluation adjustment, an offeror must receive certification as a small disadvantaged business concern by the Small Business Administration prior to contract award; or

(3) Is a joint venture as defined in 13 CFR 124.1002(f).

"Historically black college or university" means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2. For the Department of Defense (DoD), the National Aeronautics and Space Administration (NASA), and the Coast Guard, the term also includes any nonprofit research institution that was an integral part of such a college or university before November 14, 1986.

"Minority institution" means an institution of higher education meeting the requirements of Section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1067k, including a Hispanic-serving institution of higher education, as defined in Section 316(b)(1) of the Act (20 U.S.C. 1101a)).

"United States" means the United States, its territories and possessions, the Commonwealth of Puerto Rico, the U.S. Trust Territory of the Pacific Islands, and the District of Columbia.

(b) Evaluation adjustment.

(1) The Contracting Officer will evaluate offers by adding a factor of 10 percent to the price of all offers, except-

(i) Offers from small disadvantaged business concerns that have not waived the adjustment;

(ii) An otherwise successful offer of eligible products under the Trade Agreements Act when the dollar threshold for application of the Act is equaled or exceeded (see section 25.402 of the Federal Acquisition Regulation (FAR));

(iii) An otherwise successful offer where application of the factor would be inconsistent with a Memorandum of Understanding or other international agreement with a foreign government;

(iv) For DoD, NASA, and Coast Guard acquisitions, an otherwise successful offer from a historically black college or university or minority institution; and

(v) For DoD acquisitions, an otherwise successful offer of qualifying country end products (see sections 225.000-70 and 252.225-7001 of the Defense FAR Supplement).

(2) The Contracting Officer will apply the factor to a line item or a group of line items on which award may be made. The Contracting Officer will apply other

evaluation factors described in the solicitation before application of the factor. The factor may not be applied if using the adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

(c) *Waiver of evaluation adjustment.* A small disadvantaged business concern may elect to waive the adjustment, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply to offers that waive the adjustment.

\_\_\_\_\_ Offeror elects to waive the adjustment.

(d) *Agreements.*

(1) A small disadvantaged business concern, that did not waive the adjustment, agrees that in performance of the contract, in the case of a contract for-

(i) Services, except construction, at least 50 percent of the cost of personnel for contract performance will be spent for employees of the concern;

(ii) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern;

(iii) General construction, at least 15 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern; or

(iv) Construction by special trade contractors, at least 25 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern.

(2) A small disadvantaged business concern submitting an offer in its own name agrees to furnish in performing this contract only end items manufactured or produced by small disadvantaged business concerns in the United States. This paragraph does not apply in connection with construction or service contracts.

(End of clause)

*Alternate I (Oct 1998).* As prescribed in 19.1104, substitute the following paragraph (d)(2) for paragraph (d)(2) of the basic clause:

(2) A small disadvantaged business concern submitting an offer in its own name agrees to furnish in performing this contract only end items manufactured or produced by small business concerns in the United States. This paragraph does not apply in connection with construction or service contracts.

## **I.6 52.227-23 Rights To Proposal Data (Technical) (Jun 1987)**

Except for data contained on pages \_\_n/a\_\_, it is agreed that as a condition of award of this contract, and notwithstanding the conditions of any notice appearing thereon, the Government shall have unlimited rights (as defined in the "Rights in Data— General" clause contained in this contract) in and to the

technical data contained in the proposal dated \_\_n/a\_\_ upon which this contract is based.

**I.7 52.252-6 Authorized Deviations in Clauses (Apr 1984)**

- (a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the date of the clause.
- (b) The use in this solicitation or contract of any FAR (48 CFR Chapter) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the name of the regulation.

## **2 Dates**

### **2A Date Signed**

**ElementNo:** 2A  
**Name:** Date Signed  
**DEName:** Date\_Signed  
**Derivation:** None  
**Definition:** The date that a mutually binding agreement was reached. The date signed by the Contracting Officer or the Contractor, whichever is later.  
**Instruction:** Enter the date that the transaction was signed. For a bilateral transaction, this is the later of the date signed by the Contractor or the Contracting Officer. For a unilateral transaction, this is the date signed by the Contracting Officer.

## **6C Multiyear Contract**

**ElementNo:** 6C

<b>Name:</b>	<b>Multiyear Contract</b>
<b>DEName:</b>	Multiyear_Contract
<b>Derivation:</b>	None
<b>Definition:</b>	A multi-year contract means a contract for the purchase of supplies or services for more than 1, but not more than 5, program years. Such contracts are issued under specific congressional authority for specific programs. A multi-year contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and (if it does so provide) may provide for a cancellation payment to be made to the contractor if appropriations are not made. The key distinguishing difference between multi-year contracts and multiple year contracts is that multi-year contracts buy more than 1 year's requirement (of a product or service) without establishing and having to exercise an option for each program year after the first.
<b>Instruction:</b>	Enter code Y when the definition for multiyear contract applies. Do not report contracts containing options as multiyear unless the definition above applies to the contract.

## 6D Type of IDC

<b>ElementNo:</b>	6D
<b>Name:</b>	<b>Type of IDC</b>
<b>DEName:</b>	Type_of_IDC
<b>Definition:</b>	<p>Identifies whether the IDC is Indefinite Delivery/Requirements, Indefinite Delivery/Indefinite Quantity, or Indefinite Delivery/Definite Quantity.</p> <p>A requirements contract provides for filling all actual purchase requirements of designated Government activities for supplies or services during a specified contract period, with deliveries or performance to be scheduled by placing orders with the contractor.</p> <p>A Requirements IDC is a contract for all of the agency's requirement for the supplies or services specified, and effective for the period stated, in the IDC. After award, the contract is a mandatory source for the agency for the supplies or services specified. The quantities of supplies or services specified in the IDC are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.</p> <p>An indefinite-quantity contract provides for an indefinite quantity, within stated limits, of supplies or services during a fixed period. The Government places orders for individual requirements. Quantity limits may be stated as number of units or as dollar values.</p> <p>An Indefinite-Quantity is a contract for the supplies or services specified, and effective for the period stated, in the IDC. The quantities of supplies and services specified in the IDC are estimates only and are not purchased by this contract.</p>

A definite-quantity contract provides for delivery of a definite quantity of specific supplies or services for a fixed period, with deliveries or performance to be scheduled at designated locations upon order.

A Definite Quantity IDC is a definite-quantity, indefinite-delivery contract for the supplies or services specified, and effective for the period stated, in the IDC.

The following values apply to Full and Open Competition pursuant to FAR 6.1

F&O	Full and Open Competition -	Report this code if the action resulted from an award pursuant to FAR 6.102(a) - sealed bid, FAR 6.102(b) - competitive proposal, FAR 6.102(c) - Combination, or any other competitive method that did not exclude sources of any type
HZE	HUBZone Price Evaluation Preference	Report this code if the award was made through full and open competition with award to a HUBZone small business concern as a result of the HUBZone price evaluation preference. See FAR 19.1307.
HSD	Combined HUB/SDB Preference	Report this code if the award was made through full and open competition after the application of both the HUBZone Price Evaluation Adjustment Preference and the Small Disadvantaged Business Price Evaluation Adjustment per FAR 19.1307.
SDA	SDB Price Evaluation	Report this code for an award made to a small disadvantaged business as a result
AE	Adjustment Architect - Engineer	of the application of a price evaluation adjustment pursuant to FAR 19.11. Report this code if the action resulted from selection of sources for architect-engineer contracts pursuant to FAR 6.102(d)(1).
BR	Basic Research	Report this code if the action resulted from competitive selection of basic research proposals pursuant to FAR 6.102(d)(2).

The following values apply to Full and Open Competition pursuant to FAR 6.1 and only apply to Delivery Orders

CDO	Competitive Delivery	Report this code if the IDV Type is a Federal Schedule. Report this code when the
	Order	delivery/task order award was made pursuant to a process that permitted each contract awardee a fair opportunity to be considered. See FAR Part 16.505(b)(1). Report this code if the action is for the award of a multiple award schedule or an order against a multiple award schedule pursuant to FAR 6.102(d)(3) and the applicable provisions referenced there under.

The following values apply to Full and Open Competition after Exclusion of Sources pursuant to FAR 6.2

AS	Alternative Sources	Report this code if the action resulted from the use of procedures that provide for full and open competition after exclusion of sources to reduce overall costs pursuant to FAR 6.202(a)(1), to have a facility available for national defense or industrial mobilization pursuant to FAR 6.202(a)(2), to establish or maintain an essential engineering, research, or development capability pursuant to FAR 6.202(a)(3), to ensure the continuous availability of a reliable source of supply for such property or service pursuant to FAR 6.202(a)(4), to satisfy projected needs for such product or service based on a history of high demand pursuant to FAR 6.202(a)(5), to satisfy a critical need for medical, safety, or emergency supplies pursuant to FAR 6.202(a)(6).
HZC	HUBZone Set-Aside	Report this code if the award was made to a HUBZone small business concern after being competed among only HUBZone small business concerns. See FAR 19.1305.
HS2	Combination HUBZone and 8(a)	Report this code if the award was a combination HUBZone set-aside and

HS3	SDB, 8(a) with HUBZone Priority	8(a) award. Report this code when the primary preference program was 8(a) and priority was given to the 8(a) concern that was also a HUBZone small business concern. See FAR 19.800(d).
8aC	SDB Set-Aside	Report this code for a small disadvantaged business award made under a competitive 8(a) preference program pursuant to FAR 19.800(d).
SDS	Small Disadvantaged Business	Report this code for a small disadvantaged business award made pursuant to FAR 19.805.
SPP	Set-Aside SDB Participating Program	Report this code for an award made as a result of the application of the solicitation's evaluation factor or sub-factor for the participation of SDB concerns in performance of the contract pursuant to FAR 19.12.
SPS	SDB Preferential Consideration - Partial SB Set-Aside	Enter this code if the action was a partial set-aside for small business and preferential consideration resulted in an award to an SDB.
SBA	Small Business Set-Aside	Report this code for a small business set-aside (excluding Small Business Innovation Research (SBIR)) made pursuant to FAR 19.502-2 or 13.003(b)(1).
HM	HBCU or MI Set-Aside	Report this code for an award directed to a Historically Black College/University or Minority Institution per DFARS 226.7003.
VSB	Very Small Business	Report this code if the acquisition is between \$2,500 and \$50,000 and was awarded to a very small business concern as a result of using set-aside procedures under the very small business pilot program set forth in FAR 19.9.
ESB	Emerging Small Business Set-Aside	Enter this code if the action was an emerging small business reserve award (set-aside) within a designated industry group under the Small Business Competitiveness Demonstration Program (see FAR Subpart 19.10). This excludes contract actions that are modifications within the scope of work of contracts above the emerging small business reserve threshold and follow-on awards, limited to one source. See FPDS Manual Appendix B for definition of emerging small business reserve award.
SR1	SBIR Program Phase I Action	Use this code if the award was related to a Phase I contract in support of the Small Business Innovation Research (SBIR) Program.
SR2	SBIR Program Phase II Action	Use this code if the award was related to a Phase II contract in support of the Small Business Innovation Research (SBIR) Program.
SR3	SBIR Program Phase III Action	Use this code if the award was related to a Phase III contract in support of the Small Business Innovation Research (SBIR) Program.

**Notes:**

- 1 CO denotes Contracting Officer manual input or input from Agency Contract Writing System or Agency Procurement System.
- 2 Use element number to locate the definition in the Data Dictionary.
- 3 Source FPDS-NG means that the element is system generated.
- 4 \*Denotes DoD only.
- 5 Required for all purchases over \$2,500 up to and including \$25,000. (Excludes purchase card purchases.)
- 6 Agencies may report (but are not required to do so) transactions less than \$2,500 and purchase card purchases regardless of dollar value.
- 7 Agencies may report (but are not required to do so) data required for Purchase Orders < \$25k
- 8 When loading a BPA under an FSS, the Referenced PIID gets the PIID of the FSS. When making a BPA call against a BPA, the Referenced PIID gets the PIID of the BPA regardless of whether the BPA is stand-alone or under an FSS.

## J3 - FPDS-NG Logical Data Model

**J4 - Validations**

**FPDS-NG**

**Federal Procurement Data System  
Next Generation**

**Validations**

**October 15, 2002**

**prepared by**  
**FPDS Reengineering Program Office**  
Office of Acquisition Policy  
Office of Governmentwide Policy  
General Services Administration

## **The FPDS-NG Mission**

“We provide timely, accurate information about Federal Contracts to acquisition managers, Congress, and the public.

“We support government electronic procurement systems by providing web-based support services to maximize accuracy and minimize the total resource consumption in collecting the data.”

### **J4.1 Overview of Validations**

FPDS-NG will validate data reported to it. Types of validations include:

- Formatting such as verifying that dates are valid.
- Adherence to defined conventions such as the convention for a Contract Number entered into a PIID.
- Code validation such as verifying that a Contracting Agency Code is in FIPS 95 table.
- Consistency with other data in order to enforce business rules such as If Competitive Procedures = Simplified Acquisition Procedures, then Dollars Obligated must be less than or equal to \$5,000,000.
- Use Case specific such as if the user is entering a Modification to a PIID, then the entered PIID must already exist in FPDS-NG.

### **J4.2 Guide to Validation Specification**

The data elements are listed below followed by the validations that are unique to the data element. The format include Validation Reference Number, Data Elements or Other Information Required for the Validation, and Validation Requirement

Some validations are complex and associated with several data elements. These are listed separately under the heading Complex Validations.

Most validations are specific such as:

If Data Element A = N, then Data Element B must = M.

Some Validations are less specific such as:

If Contracting agency Code indicates DoD, then Data Element A must = N.

In this example, there are many Contracting Agency Codes that are DoD codes, so the validation specification is simplified although the implementation may be complex. The contractor is responsible for determining the best implementation.

There is no data element called Use Case or Today's Date. Validations that reference these assume that the FPDS-NG knows the date and that the user interface is tracking what the user is asking FPDS-NG to do such as Add an Award or Add a Modification. Implementation of these pseudo-fields is the responsibility of the contractor.

The Use Case Summary defines which data elements may be entered for each use case. Therefore, no validations are provided here to ensure that only allowable data elements are entered.

### **J4.3 Agency-Specific Validations**

Agency Interface Agreements will result in agency-specific validations. The Government will work with agencies to specify agency-specific validations as part of developing the Agency Interface Agreements.

FPDS-NG will implement agency-specific validations once an Agency Interface Agreement is ratified. (Note: Under Alternative I, negotiating Interface Agreements would be the responsibility of the contractor.)

**J4.4 Validations for Data Elements****PROPOSED FPDS-NG CONTRACT DATA****1 Contract Identification Information****1A Procurement Instrument Identifier (PIID)**

- |   |                         |   |
|---|-------------------------|---|
| 1 | Format                  | PIID must be upper case alpha and numeric only with no embedded spaces or special characters. FPDS-NG will convert lower case letters to upper case, remove leading or trailing blank spaces, and remove any non-alphanumeric characters prior to validation.   |
| 2 | Contracting Agency Code | The first characters (length to be determined by coordination with FPDC) must be a valid Agency contract number prefix from the Agency Prefix table. (If this is accepted as a federal standard.)   |
| 3 | PIID and Use Case       | If the PIID exists, then the Use Case must be Modify, Change, Delete, or Void.<br>If the PIID does not exist, then the Use Case must be Add IDV, Add Award, or Void.  |
| 4 | PIID and Source UserID  | For IDV, if the PIID exists, then the Source UserID must be authorized to operate on the PIID. For Award types, if the PIID does not exist, the Source UserID must be authorized to report the contracting agency prefix. For other transaction types, the Source UserID must be authorized to submit data. |

**1B Modification Number**

- |   |          |  |
|---|----------|--|
| 1 | Format   | Modification Number must be upper case alpha and numeric only with no embedded spaces or special characters. FPDS-NG will convert lower case letters to upper case, remove leading or trailing blank spaces, and remove any non-alphanumeric characters prior to validation. |
| 2 | Format   | Modification Number must not equal “Award” or “Basic” or all zeros or any other “odd” /disallowed value.   |
| 3 | Use Case | If Modification Number already exists, then Use Case must be Change, Delete, or Void.  |
| 4 | Use Case | If Modification Number does not already exist, then Use Case must be Add Modification  |

**1C Referenced PIID**

- |   |               |   |
|---|---------------|---|
| 1 | PIID          | Referenced PIID must be an existing PIID or blank                                       |
| 2 | Type of Award | If Type of Award is Delivery Order or BPA Call, then Referenced PIID must have a value. |

**1D Transaction Number**

- 1 Format Transaction Number must be an integer between 001 and 999 or must be blank. Requires specific agreement with FPDC
- 2 PIID, Modification Number Transaction Number must be unique within a PIID and Modification Number.

**1E Solicitation Identifier**

- 1 Format Solicitation Identifier must be upper case alpha and numeric only with no embedded spaces or special characters. FPDS-NG will convert lower case letters to upper case, remove leading or trailing blank spaces, and remove any non-alphanumeric characters prior to validation.
- 2 Pre-Award Solicitation Requirement If Pre-Award Solicitation Requirement = Yes, then Solicitation Identifier must be in FedBizOpps. (Note: Must be coordinated with Agencies and with FedBizOpps.)
- 3 Pre-Award Solicitation Requirement If Pre-Award Solicitation Requirement = No, then Solicitation Identifier may be blank.

**2 Dates****2A Date Signed**

- 1 Format Date Signed must be a valid date.
- 2 Today's Date Date Signed cannot be later than the today's date.
- 3 Today's Date Date Signed year cannot be prior to 5 years before the current fiscal year.

**2B Effective Date**

- 1 Format Effective Date must be a valid date.
- 2 Today's Date Effective Date year cannot be prior to 5 years before the current fiscal year.

**2C Current Completion Date**

- 1 Format Current Completion Date must be a valid date.
- 2 Effective Date Current Completion Date must be equal to or later than Effective I modification.
- 3 Ultimate Completion Date Current Completion Date must be less than or equal to Ultimate C

**2D Ultimate Completion Date**

- 1 Format Ultimate Completion Date must be a valid date.

- 2 Product or Service Code, Effective Date If Product or Service Code begins with 'X' (leases) or for Product 'S' (utilities), then Ultimate Completion Date may be later than 25 of the Award. Otherwise Ultimate Completion Date must be less than Effective Date of the Award.
- 2E Indefinite Delivery Vehicle Last Date to Order
- 1 Format IDV Last Date to Order must be a valid date.
- 2 Effective Date Last Date to Order must be equal to or later than Effective Date of

### 3 Dollar Values

- 3A Ultimate Contract Value
- 1 Format, Award Type Ultimate Contract Value must be currency (Dollar value – numeric symbol, and comma. Decimal point is required before cents. Minus values). If use case is an Award Type, then Ultimate Contract Value equal to \$0.00.
- 2 Dollars Obligated Ultimate Contract Value must be greater than or equal to Dollars C
- 3 Synopsis Waiver Exception If Synopsis Waiver Exception = Yes, then Ultimate Contract Value \$100,000
- 3B Current Contract Value
- 1 Format, Award Type Current Contract Value must be currency. If use case is an Award Type, then Current Contract Value must be greater than or equal to \$0.00.
- 2 Ultimate Contract Value Current Contract Value must be less than or equal to Ultimate Contract Value.
- 3C Dollars Obligated
- 1 Format Dollars Obligated must be currency.
- 2 Award Type If Award Type has a value, then Dollars Obligated must be greater than or equal to \$0.00.
- 3 Reason for Modification If Reason for Modification = Terminate for Default, then Dollars Obligated must be less than or equal to \$0.00.
- 4 Commercial Item Test Program If Commercial Item Test Program = Yes, then the absolute value of Dollars Obligated must be less than or equal to \$5,000,000.
- 5 Competitive Procedures If Competitive Procedures = Very Small Business Set-Aside, then Dollars Obligated must be less than or equal to \$50,000.
- 6 Competitive Procedures If Competitive Procedures = Emerging Small Business Set-Aside, then Dollars Obligated must be less than or equal to \$25,000.
- 7 Current Contract Value The sum of Dollars Obligated for all transactions with the same PIID must be less than or equal to Current Contract Value

- 8 PIID If Dollars Obligated is less than \$0.00, then the total of all dollars obligated for the reported PIID must be greater than the amount for this transaction.

#### 4 Purchaser Information

##### 4A Contracting Agency Code

- 1 FIPS 95 Contracting Agency Code must be in the FPDS-NG FIPS 95  
Look-up Agencies/Sub-agency look-up table. (The table is adapted from  
Table the following source: <http://www.itl.nist.gov/fipspubs/fips95-2.doc> )

| 2 | IDV Type                  | If IDV Type = FSS, then Performance-Based Service Contract must be 'N'.   |
| 3 | Product or Service Code * | If Product or Service Code is numeric or begins with C, <b>S1</b> , or Y, then Performance-Based Service Contract must = 'N'.       |
| 4 | Product or Service Code * | If Performance-Based Service Contract is 'Y', then Product or Service Code must begin with A through <b>Z</b> excluding C, S1 or Y. |
| 5 | DUNS Number               | If DUNS Number represents Federal Prison Industries, i.e., UNICOR, then Performance-Based Service Contract must = 'N'.              |

\* Conflicts exist between ICAR and DCADS when PSC begins with S1 and Z.

- 6G Major Program  
 1 Format Major Program must be a value from agency maintained table or blank.
- 6M Description of Requirement  
 1 Format Description of Requirement is a free form text.
- 6N Purchase Card as Payment Method  
 1 Format Purchase Card as Payment Method is a Boolean.

## 7 Legislative Mandates

- 7A Clinger-Cohen Act Planning Compliance  
 1 Format Clinger-Cohen Act Planning Compliance is a Boolean.
- 7B Walsh-Healey Act  
 1 Format Walsh-Healey Act is a Boolean.  
 2 DUNS Number If DUNS Number is the DUNS that represents Federal Prison Industries, i.e., UNICOR, then Walsh-Healey Act must = No.  
 3 Commercial Item Acquisition Procedures If Commercial Item Acquisition Procedures = Yes, then Walsh-Healey Act must = No.  
 4 Principle Place of Performance If Principle Place of Performance is not U.S., then Walsh-Healey Act = No.
- 7C Service Contract Act  
 1 Format Service Contract Act is a Boolean.  
 2 DUNS Number If DUNS Number is the DUNS that represents Federal Prison Industries, i.e., UNICOR, then Service Contract Act must = No.  
 3 Principle Place of Performance If Principle Place of Performance is not U.S., then Service Contract Act = No.
- 7D Davis-Bacon Act  
 1 Format Davis-Bacon Act must be Boolean.  
 2 DUNS Number If DUNS Number is the DUNS that represent Federal Prison Industries, i.e., UNICOR, then Davis-Bacon Act must = No.  
 3 Principle Place of Performance If Principle Place of Performance is not U.S., then Davis-Bacon Act = No.

## 8 Product or Service Information

### 8A Product or Service Code

- 1 Product or Service Code Look-up Table Product or Service Code must be in the FPDS-NG Product or Service Code Look-up Table. The table is based on the following sources:  
<http://web1.whs.osd.mil/peidhome/guide/mn02/mn02.htm> and  
<http://www.fpsc.gov/fpsc/psc1998.pdf>
- 2 Award Type, Referenced PIID, IDV Type If Award Type = DO and Referenced PIID points to an IDV for which IDV Type = FSS, then position 1 of Product or Service Code cannot be "A" (Research and Development) and Product or Service Code cannot be S111, S112, S114, or S119 (Utilities other than telecom).
- 3 Synopsis Waiver Exception If Synopsis Waiver Exception = Yes, then Product or Service Code must begin with A through Z, except for E. (The SBA/OFPP Waiver Pilot exception can only be applied to services. It cannot be applied to purchases of structures and facilities.)
- 4 Competitive Procedures, Reason Not Competed, DUNS Number If Competitive Procedures = Basic Research or Reason Not Competed = Unsolicited Research, then Product or Service Code must begin with "A" (Research and Development), or Product or Service Code may be 9999 if DUNS Number=790238638 or 790238851.
- 5 Competitive Procedures, DUNS Number If Competitive Procedures = SBIR Program Phase I Action or SBIR Program Phase II Action, then Product or Service Code must begin with "A" (Research and Development), or Product or Service Code may be 9999 if DUNS Number = 790238638 or 790238851.
- 6 Competitive Procedures If Competitive Procedures = Architect – Engineer, then Product or Service Code must begin with "C". (Architect and Engineering Code)
- 7 Competitive Procedures, Reason Not Competed If Competitive Procedures = SDB Set-Aside or Reason Not Competed = Non-Competitive 8(a), then Product or Service Code cannot start with "S1" (Utilities).
- 8 Reason Not Competed If Reason Not Competed = Utilities, then Product or Service Code must begin with "S1" (Utilities).
- 9 Reason Not Competed If Reason Not Competed = Authorized for Resale, then position 1 of Product or Service Code must be numeric.

- |    |                                   |  |
|----|-----------------------------------|--|
| 10 | Competitive Procedures            | If Competitive Procedures = Emerging Small Business Set-Aside, then Product or Service Code must be any code starting with Y (Construction) or Z (Maintenance of Real Property) except Y216 or Z216 (Dredging), or C111, C112, C113, C114, C115, C116, C117, C118, C119, C121, C122, C123, C124, C129, C130, C211, C212, C213, C214, C215, C216, C219 (All Architect and Engineering Services), J998, J999 (Non-Nuclear Ship Repair), R404 (Surveying), S205 (Garbage Collection), T002, T004, T008, T009, T014 (Map Making), F015 (Well Drilling), P400 or P500 (Demolition). |
| 11 | Service Contract Act, DUNS Number | If Service Contract Act = Yes, then position 1 of Product or Service Code must be alpha, or Product or Service Code may be 9999 if DUNS Number = 790238638 or 790238851.   |
| 12 | Davis-Bacon Act, DUNS Number      | If Davis-Bacon Act = Yes, then Product or Service Code must be construction (begin with “Y” or “Z”), well drilling (“F015”), or demolition (“P400” or “P500”). Product or Service Code may be miscellaneous (“9999”) if DUNS Number = 790238638 or 790238851.  |
| 13 | Business Types, DUNS Number       | If Business Types = Historically Black College or University, Minority Institution, or Educational Institution, then position 1 of Product or Service Code must be alpha, or Product or Service Code may be 9999 if DUNS Number=790238638 or 790238851.  |
- 8D Bundled Requirement
- |   |        |                                   |
|---|--------|-----------------------------------|
| 1 | Format | Bundled Requirement is a Boolean. |
|---|--------|-----------------------------------|
- 8E Bundled Contract Exception
- |   |                     |   |
|---|---------------------|---|
| 1 | Format              | Bundled Contract Exception must have a valid value from the FPDS-NG Data Dictionary or blank.             |
| 2 | Bundled Requirement | If Bundled Requirement = Yes, then Bundled Contract Exception must have a value, otherwise must be blank. |
- 8G NAICS

#### **J.4.5.1 DoD Specific Validations**

1A	Procurement Instrument Identifier (PIID)	
----	--	--

NOTE	Positions may change as a result of FAR Case for FAR 4.11 (Unique Numbering of Procurement Instruments). Positions 1 thru 3 of PIID must not be “NIH” or “N1H”. PIID must be 13 characters.
1 Format	
2 Format	
3 Format	Positions 1 thru 6 of the PIID must be a valid code identifying the DoD department or agency that issued the instrument.
4 Format	Positions 7 & 8 of the PIID must be the last 2 digits of FY in which initial contract number was assigned.
5 Effective Date	PIID positions 7 and 8 must be equal to or less than Effective Date year, except 1st quarter Effective Dates (1 Oct thru 31 Dec) for which positions 7 and 8 of PIID may be 1 later than Effective Date year.
5A Letter Contract	Note: Contracts awarded in FY 1999 or earlier require special handling when Action Date is after 20000101. If Letter Contract = Y, then positions 7 and 8 of PIID must be later than or equal to the last two digits of the current FY - 1.
6 Format	Position 9 of the PIID (Type of Instrument code) must be listed in DFARS 204.7003.
7 Format, Contracting Agency Code	If Contracting Agency Code indicates a DoD Agency, then position 9 of the PIID must not be the letters B, I, J, N, O, Q, R, T, U or Y.
8 Format, Award Type	If Award Type = DO or BPA Call and Referenced PIID indicates a non-DoD agency, then Position 9 of PIID must = A or F and Positions 11 thru 13 of PIID may not be blank.
9 Format	Position 10 of the PIID cannot be the letters I or O.
10 Competitive Procedures, Reason Not Competed	If position 9 of PIID is Purchase Order (M, W, P, or V), then Competitive Procedures must = Simplified Acquisition Procedures - Competitive or Reason Not Competed must = Simplified Acquisition Procedures - Non-Competitive.
11 Award Type, Competitive Procedures, Reason Not Competed	If position 9 of PIID is A (BPA), then Award Type must = BPA Call or (Competitive Procedures must = Simplified Acquisition Procedures - Competitive or Reason Not Competed must = Simplified Acquisition Procedures - Non-Competitive).
12 Letter Contract, Reason for Modification, Award Type, Type of IDC	If position 9 of PIID is C, then Letter Contract must = Yes or Reason for Modification must = Definitize Letter Contract or Award Type must = Stand-Alone Contract or Type of IDC must = Indefinite-Delivery-Definite-Quantity or Indefinite-Delivery-Indefinite-Quantity.

- 13 Award Type, Referenced PIID, Type of IDC, IDV Type  
If position 9 of PIID is D (IDC), then Award Type must = Stand-Alone Contract or (Type of IDC must = Indefinite-Delivery-Definite-Quantity or Indefinite-Delivery-Indefinite-Quantity) or (Award Type = Delivery Order and Referenced PIID must point to an IDV for which IDV Type = IDC).  
**NOTE: Can position 9 be D for a Requirements IDC?**
- 14 Reason for Modification, Award Type, Type of IDC  
If position 9 of PIID is E (Facilities Contract), then Reason for Modification must = Definitize Letter Contract or Award Type must = Stand-Alone Contract or Type of IDC must = Indefinite-Delivery-Definite-Quantity or Indefinite-Delivery-Indefinite-Quantity.
- 15 Reason for Modification, Award Type, Type of IDC, DUNS Number, IDV Type  
If position 9 of PIID is F (Action placed through non-DoD agency), then Reason for Modification must = Definitize Letter Contract or Award Type must = Stand-Alone Contract or Type of IDC must = Indefinite-Delivery-Definite-Quantity or Indefinite-Delivery-Indefinite-Quantity  
or  
(Award Type = PO, DO, or BPA Call and (Business Types = Sheltered Workshop (JWOD Provider) or DUNS Number = 626627459 (UNICOR)) and Referenced PIID does not point to an IDV for which IDV Type = FSS).
- 16 Reason for Modification, Award Type, Type of IDC  
If position 9 of PIID is L (Lease Agreement), then Reason for Modification must = Definitize Letter Contract or Award Type must = Stand-Alone Contract or Type of IDC must = Indefinite-Delivery-Definite-Quantity or Indefinite-Delivery-Indefinite-Quantity.
- 17 Reason for Modification, Award Type, Type of IDC  
If position 9 of PIID is G (BOA) or H (Agreements other than BOA and BPA), then Award Type = Delivery Order and Referenced PIID must point to an IDV for which IDV Type = BOA  
**Note: DoD has agreements that are neither BOA nor BPA. For example: Basic Agreements and Loan Agreements**
- 18 Award Type  
If Award Type = BPA Call, then position 9 of PIID must = "A"
- 19 Today's Date, Letter Contract  
If Letter Contract = Y, then positions m+1 to m+2 must be later than or equal to the last two digits of the current FY - 1.
- 20 Today's Date, Type of Award  
IDV Type is not blank or Award Type = Purchase Order or Stand-Alone Contract, then positions 7 and 8 must be later than or equal to the last two digits of the current FY - 5.

## **J6 - Glossary**

### **Purpose**

This glossary defines terms used in the technical documents that are used in the FPDS-NG projects. Definitions of data elements are found in the data dictionary.

### **Terms**

**Agency:** Agency refers to one of the cabinet level departments or one of the independent agencies, bureaus, commissions, centers, or other organizations that report data to FPDS and/or FPDS-NG. Generally, an agency has an independent budget and its procurement activities are governed by the Federal Acquisition Regulation. Agencies include all of the cabinet level departments (Defense, Transportation, Treasury, Education, etc.) and about 50 independent organizations (General Services Administration, Kennedy Center for the Performing Arts, Peace Corps, American Battle Monuments Commission, etc.).

**Agency Interface Agreements:** An agreement between FPDC and agencies.

**Agency Procurement Systems:** Some agencies have created systems similar to Federal Procurement Data System (FPDS) for maintaining procurement data. The Defense Contract Action Data System (DCADS) is one example. Agency procurement systems capture all the data required by FPDS and may capture additional data of specific interest to the agency. FPDS-NG may interface with these systems to meet contract action reporting requirements automatically and in real time.

**Award:** A contract for specific supplies or services. Awards obligate funds by the government and require specific performance or delivery by the contractor. The types of awards are Purchase Orders, Stand-Alone Contracts, BPA Calls, and Delivery Orders.

**Batch Processing (ASCII Text):** Batch is used to refer to a method for transferring data from one computer system to another where the data are contained in a file and processing of the data is (usually) a separate activity and returning the results of processing the data to the source is (again usually) a separate activity. Batch is usually not considered a "real time" method. Some agencies provide data to the FPDS using an ASCII text (American Standard Code for Information Interchange) data file that is generated by the agency's procurement system or contract writing system. These files take unacceptable time and resources to

process and validate. It is the goal of the FPDS-NG to replace ASCII text files with machine-to-machine interfaces using open standards.

**Basic Ordering Agreement (BOA):** A written document that contains terms and clauses applying to future orders, a description of supplies or services to be provided, and methods for pricing, issuing, and delivering orders. A BOA may be used to expedite contracting when specific items, quantities, and prices are not known at the time the agreement is executed.

**Blanket Purchase Agreement (BPA):** A simplified method for fulfilling repetitive needs for supplies or services by establishing “charge accounts” with qualified sources. A BPA may be established under an FSS. BPAs should be established for use by an organization responsible for providing supplies for its own operations or for other organizations such as supply points, detached field parties, or one-person posts.

**BPA Call:** An order against a BPA. In addition to the term “Call”, the Federal Acquisition Regulation also uses the term “Purchase Order” to refer to orders placed against a BPA, but FPDS-NG technical documents always use the term BPA Call for this.

**Browser-Based:** Browser-based refers to interactions between a person and a server using World Wide Web protocols and methods. For the purpose of FPDS-NG, it does not include all possible methods, but only those associated with use of basic HTML without using any other capabilities such as javascript, ActiveX controls, plug-ins, or applets. The “value proposition” for FPDS-NG’s browser-based interfaces is for solid reliability with a broad array of browsers rather than entertaining graphics, flashy techniques, or support for “popular” features.

**Business Partner Network (BPN):** This is a future system that may combine the information currently contained in the Department of Defense’s (DoD) Central Contractor Registration (CCR) and the Small Business Administration’s (SBA) Procurement Marketing and Access Network (PRO-Net) [<http://pro-net.sba.gov/>]. BPN would contain additional information such as the data that is collected in the Representations and Certifications section of solicitations. In addition to government contractors, BPN may include grantees and government agencies to facilitate a broader domain of business partners. Partners would be responsible for maintaining their own information and ensuring its accuracy and currency. An interim version of this system has been known as the Integrated Vendor Profile Network (IVPN). FPDS-NG would use the Data Universal Numbering System (DUNS) number as the key to access the BPN to retrieve contractor information eliminating the requirement for contracting offices to submit this information.

**Central Contract Registration (CCR):** CCR is the computer system that contains contractor information [<http://www.ccr.gov/>]. Use of CCR will be mandatory for all agencies subject to the Federal Acquisition Regulation prior to initial operations of FPDS-NG. See also Business Partner Network.

**Change:** An FPDS-NG transaction that corrects data elements to make them consistent with an actual IDV, Award, or Modification document, that is, to correct an error. May also be used in special circumstances to report a change in a data element which is not normally changeable via a Modification transaction.

**Contract Writing Systems:** Some agencies have automated contract writing enabling contracting officers to take fewer steps when writing contracts. Contract writing systems may automatically complete contract forms with contract office information and vendor information eliminating errors and saving time. Contract writing systems may automatically select clauses and other terms and conditions when requirements are similar to other contracts. This is particularly useful when writing task orders, delivery orders, and BPA calls. FPDS-NG may interface with these systems to meet contract action reporting requirements automatically and in real time.

**Delete:** An FPDS-NG transaction that flags a transaction or group of transactions as deleted.

**Delivery Order:** An order for supplies or services placed against a GWAC, IDC, FSS, or BOA. Delivery Order includes the term Task Order. Delivery Order usually refers to an order for supplies, and Task Order usually refers to an order for services. FPDS-NG treats them alike.

**Direct Key Entry:** Direct Key Entry refers to a method for collection of data where a person keys data into a data entry form. For FPDS-NG, direct key entry will be via browser-based forms.

**Federal Acquisition Management Information System (FAMIS):** FAMIS is a name that has been used extensively to refer to the next generation of FPDS. It may or may not be approved for final use. See FPDS-NG below.

**Federal Procurement Data Center (FPDC):** FPDC is the name of the organization with direct operating responsibility for FPDS and FPDS-NG.

**Federal Procurement Data System (FPDS):** The FPDS is the central repository of statistical information on Federal contracting.

**FPDS:** FPDS is the predecessor of FPDS-NG. As of the date of this glossary, FPDS is fully developed and in operation. FPDS began collection of data in October, 1978, the beginning of fiscal year 1979. The system contains detailed information on contract actions over \$25,000 and summary data on procurements of less than \$25,000. The Executive departments and agencies award over \$200 billion annually for goods and services. The system can identify who bought what, from whom, for how much, when and where. Please see <http://www.fpdc.gov/> for more information.

**FPDS-NG:** FPDS – Next Generation. FPDS-NG is the successor to the Federal Procurement Data system. As of the date of this glossary, FPDS-NG is not yet developed or in operation. The “official” name for this updated FPDS has not been selected. See FAMIS above. The main improvements over the FPDS include collecting data on most transactions, interoperability with electronic contract systems, “real time” data collection, and “real time” report availability.

**Federal Supply Schedule:** Contract through which federal customers can acquire commercial services and services directly from the supplier. Either the General Services Administration (GSA) or the Veterans Administration (VA) awards the FSS and all agencies may purchase from them. Normally, contractors do not compete to receive an FSS, but the government evaluates prices to ensure that they are fair and reasonable.

**Government-Wide Agency Contract (GWAC):** Government-wide contract for various information technology (IT) resources. GWACs are awarded by one federal agency, but all other federal agencies can use them by placing orders through the awarding agency. Usually, vendors form teams and compete for GWACs that are awarded to multiple teams. GWAC programs require specific approval by the Office of Management and Budget.

**Indefinite-Delivery Contract (IDC):** General category of contracts for supplies and/or services that do not procure or specify a firm quantity or delivery schedule and that provide for the issuance of orders for the delivery of supplies and/or the performance of tasks during the period of the contract. An IDC usually limits the agencies that can place orders against it. An IDC may be issued to individual or multiple contractors. The types of IDC are requirements (all of an agency’s orders for the specified good or service go to the selected contractor), definite-quantity (where the delivery schedule or locations are not definite), and indefinite-quantity.

**Indefinite Delivery Vehicle (IDV):** A term used for FPDS-NG for a general category of contract vehicles that do not procure specific services or services, but provide for the issuance of orders for supplies or services. IDVs usually obligate no funds (or very limited funds) and never require specific performance or delivery by the contractor. The five types of IDVs are GWAC, FSS, IDC, BPA, and BOA.

**Machine-to-Machine:** Machine-to-Machine refers to methods for web-based collection of or dissemination of information where a person is not (directly) involved in the exchange of information. Instead, a computer system initiates a communication with another computer system, and the two systems handle all the details required to solicit a service, provide a service, and transfer any required information.

**Modification:** A document that changes the terms or conditions, exercises an option, or alters administrative data in an IDV or an Award.

**Purchase Order (PO):** An offer by the Government to buy supplies or services using simplified acquisition procedures (SAP). As used in FPDS-NG documents, a purchase order is a stand-alone instrument (the term does not include orders placed under a BPA; see BPA Call). When a PO is for \$25,000 or less, FPDS-NG requires reporting of fewer data elements. A PO is never tied to an IDV.

**Real Time:** Real Time is a non-technical term used by managers and users to describe the expected response of an interface or the expected lag time in the availability of data. In general, Real Time is used only in a descriptive sense. When a specific requirement exists, that requirement is stated as a specific number of seconds, minutes, hours, and/or days. In all other cases, the offeror/contractor is expected to provide a “best practices” solution or the solution that is necessary to achieve one of the specified requirements. Real Time is not used in the sense of real time programming or imbedded systems where responses must be received in a time frame that is critical to the success of the system.

**Stand-Alone Contract (SAC):** A contract awarded using sealed bids or negotiation for specific supplies or services at specified costs or prices. Simplified Acquisition Procedures were not used (see Purchase Order). A SAC is never an order under an IDV.

USER FRIENDLY

**Void:** An FPDS-NG transaction that flags a Procurement Instrument Identifier as unavailable for use.

**Web-Based:** Web-Based refers to methods for collection of or dissemination of information using the public Internet. For the purpose

of FPDS-NG, it does not include all possible methods, but those associated with browser-based services, machine-to-machine web services, and batch services.

**Web Service:** The Federal Enterprise Architecture defines web services as an architecture for allowing applications to discover and access functional capabilities of other applications using Internet based standards.

Type of Evaluation:\_\_\_Interim\_\_\_Final for the period:\_\_\_\_\_

**EVALUATION OF CONTRACTOR'S PERFORMANCE**

The contractor should be evaluated using the following ratings:

**E** = Excellent: Contractor exceeded the requirements. Explain how.

**S** = Satisfactory: Contractor met the requirements. If the contractor had difficulty meeting the requirements, explain why.

**U** = Unsatisfactory: Contractor did not meet all of the requirements. Explain all noncompliance's or unsatisfactory performance, and whether and how the contractor was at fault, where applicable.

**N/A = Not Applicable.** Does not apply to the contract.

1. **Cost/Price Control.** Rating: **E**\_\_\_**S**\_\_\_**U**\_\_\_**N/A**\_\_\_. Consider: Did the contractor complete the contract within the contract amount or did the contractor experience cost growth?

2. **Schedule Control.** Rating: **E**\_\_\_**S**\_\_\_**U**\_\_\_**N/A**\_\_\_. Consider: Did the contractor meet the original completion date? Request an extension due to reasons within its control? Finish ahead of schedule?

3. **Contract Administration.** Rating: **E**\_\_\_**S**\_\_\_**U**\_\_\_**N/A**\_\_\_. Consider:

Did the contractor respond to Government correspondence in a timely manner? Were unnecessary cost/price change proposals submitted? Were Government requested price changes submitted and negotiated promptly? Were contract modifications promptly executed? Were the subcontracts properly administered? Did the contractor comply with its subcontracting plan? Were progress reports submitted on time? Were invoices submitted correctly? Were contract discrepancies/problems reported promptly? Were major subcontracts administered properly?

4. **Responsiveness to Government.** Rating: **E\_\_S\_\_U\_\_N/A\_\_.**

Consider: Were complaints from the Government resolved in a reasonable and cooperative manner? Were telephone calls responded to promptly? Were controversial issues resolved amicably? Was the contractor reasonable and responsive the Government's needs?

5. **Contract Compliance with Technical Requirements.**

Rating: **E\_\_S\_\_U\_\_N/A\_\_.** Consider: Were all of the contract requirements met? Were the objectives of the statement of work met? Were problems resolved? Will the delivered items or services be able to be used for the purpose intended? If not useable, why not?

6. **Key Personnel.** Rating: **E\_\_S\_\_U\_\_N/A\_\_.** Consider: Did the personnel have the knowledge and expertise necessary to perform the technical requirements? Were changes in key personnel made? How often were they made?

7. **Recommendation:** Would you recommend award to this contractor for future contracts for like or similar requirements? Yes\_\_No\_\_. If no, please fully explain.

## **FPDS-NG Batch Data Submission Format**

FPDS-NG data that will be submitted in batch format must comply with the following standards.

1. Uses 8-bit ASCII
2. Submits all records in a standard text file (ASCII with each record terminated by an operating system specific new line character). File must be fixed format.
3. The batch data may be delivered by FTP (File Transfer Protocol), email, or online. No floppy, CD, or physical media will be accepted.
4. One batch data file contains records from only one system.
5. There will be an agreement between the Contracting Agency and FPDS-NG that describes the frequency of the submission of batch data. This should be at least monthly.
6. Includes a “batch control” record as the first or last record in the file. The “batch control” record contains the FIPS95 code for the agency submitting the data, a count of the individual record formats (i.e., a count for each format), and a sum of the obligated dollar field of all award and modification formats.
7. Contains one record for each transaction being reported in one of the following formats:
  - a) Indefinite Delivery Vehicle (Type of Record Code = “I”)
  - b) Award (Type of Record Code = “A”)
  - c) Modification (Type of Record Code = “M”)
  - d) Change (Type of Record Code = “C”)

- e) Deletion (Type of Record Code = “D”)
- f) Void (Type of Record Code = “V”)
- g) Subcontracting (Type of Record Code = “S”)
- h) Subcontracting Continuation (Type of Record Code = “N”)
- i) Agency Office (Type of Record Code = “G”)
- j) Offset Officer (Type of Record Code = “O”)

## **GSA eGov Architectural Requirements**

Any new development efforts on the Integrated Acquisition Environment projects shall be compliant with the following GSA eGov Architectural Requirements. These requirements have been developed to ensure that all GSA eGov initiative solutions are compatible with GSA's architectural approach and environment for implementing the Federal Enterprise Architecture defined by the OMB Federal Enterprise Architecture Program Office.

### **Web Browser-Based User Interface**

Provide a browser-based user interface that:

- Is compatible with Microsoft Internet Explorer® browser version 5.5 or later and with Netscape Navigator® browser version 6.x or later;
- Is client platform and operating system independent;
- Requires no client application software other than one of the specified web browsers with associated signed plug-ins or signed Java applets that are downloadable on demand;
- Does not require other mobile code such as client-side scripting support (e.g., Javascript) or ActiveX components; and
- Does not require cookies, other than session cookies, to deliver full client functionality.

### Portal

Projects shall be capable of interoperating with the FirstGov Portal, and other Agency or Line of Business Portals as described in the project requirements. Any proposed portal component shall be based on J2EE or .Net architectures, with J2EE preferred. Any proposed portal shall be deployed using either a UNIX or Windows 2000 (or later) operating system.

### Web Server

The web server component of projects shall be based on J2EE or .Net architectures, with J2EE preferred. These components shall be deployed using either a Unix or Windows 2000 (or later) operating system.

### Application Server

The application server component of projects shall be based on J2EE or .Net architectures, with J2EE preferred. These components shall be deployed using either a Unix or Windows 2000 (or later) operating system.

### Operational Database Management System

The operational database platform shall be based on either Oracle version 7 or later, or Microsoft SQL Server version 7 or later. These components shall be deployed using either a Unix or Windows 2000 (or later) operating system.

### Integration Layer

Project shall provide application integration capabilities and infrastructure for integration with government legacy systems, other eGov solutions, and external partners (e.g., State and Local Governments or Industry). The integration capabilities shall include flexible transport, routing, and data translation services based on message/integration broker and XML Web Services architectures. The integration capabilities must be able to support both:

- Near-real-time, event-based integration leveraging industry standard XML vocabularies to maximize interoperability and minimize the time for business events to be reflected in all related systems; and
- Batch integration and data translation capabilities for minimally intrusive integration with existing legacy applications that are currently limited to existing data formats and file transfer or other batch interface mechanisms.

The contractor shall coordinate with external system owners to develop Integration Agreements for each interfacing system. External system owners will be responsible for developing the detailed data mapping between their data formats and the project's standardized XML schema, and for implementing their side of the interface using the provided integration platform.

### Electronic Authentication (eAuthentication) Interoperability.

Projects shall be capable of interfacing with and authenticating users via the Federal Government eAuthentication Gateway at the appropriate authentication level. eAuthentication standards are expected to be published 60-90 days before the eAuthentication Gateway goes live (targeted for September 2003). The interface shall use industry open system standard security protocols. eAuthentication policies and technical information may be found on the web at <http://www.cio.gov/eauthentication>.

## J13 – Award Term Plan

## 1.0 Introduction

This is the basis for evaluation of the contractor's performance and for presenting an assessment of that performance to the Term Determining Official (TDO). The evaluation for the number of term points to be awarded will begin at the start of the contract.

Award-term contracting is effective when

- Performance metrics are objective,
- A long-term business relationship is of value to the government and to the contractor, and
- The expected outcomes are known up front

The specific criteria and procedures used for assessing the contractor's performance and for determining the award term earned are described herein. All TDO decisions regarding the award-term points – including, but not limited to, the number of points, if any; the methodology used to calculate the points; the calculation of the points; the contractor's entitlement to the points; and the nature and success of the contractor's performance – are final and not subject to the Disputes Clause.

The award term will be provided to the contractor through unilateral contract modifications based upon points earned as determined by the TDO.

## 2.0 Organization

The award-term organization includes the TDO and an Award-Term Review Board (ATRB) consisting of a chairperson, the contracting officer, a recorder, other functional area participants, advisory members, and the performance monitors.

## 3.0 Responsibilities

- a. Term-Determining Official. The TDO approves the award-term plan and any significant changes to it. The TDO reviews the recommendations of the ATRB, considers all pertinent data, and determines the earned award-term points for each evaluation period. The TDO appoints the ATRB chairperson.
- b. Award-Term Review Board Chairperson. The ATRB chairperson chairs the meetings of the ATRB and appoints the non-mandatory

members of the board and the performance monitors. The ATRB chairperson briefs the TDO on recommended earned term amounts and the contractor's overall performance and recommends award-term plan changes to the TDO.

- c. Award-Term Review Board. ATRB members review performance monitors' evaluation of the contractor's performance, consider all information from pertinent sources, prepare interim performance reports, and arrive at the earned award-term points recommendation to be presented to the TDO. The ATRB will also recommend changes to this plan. An assessment of the contractor's performance will be done on a yearly basis.
- d. ATRB Recorder. The ATRB recorder is responsible for coordinating the administrative actions required by the performance monitors, the ATRB, and the TDO.
- e. Contracting Officer (CO). The CO is the liaison between contractor and government personnel. Subsequent to the TDO decision, the CO evaluates the award-term points available and modifies the contract period of performance, if necessary, to reflect the decision.
- f. Performance Monitors. Performance monitors maintain written records of the contractor's performance in their assigned evaluation areas so that a fair and accurate evaluation is obtained. Monitors prepare interim and end-of-period evaluation reports as directed by the ATRB.

#### 4.0 Award-Term Processes

- a. Available Award-Term Points. The earned award-term points will be based on the contractor's performance during each evaluation period. An accumulation of positive points (e.g., +50, +75, or +100) is required for a one-year term extension, while an accumulation of negative points (e.g., -50, -75, or -100) results in a one-year reduction in the contract period. It is important that the point system be tailored to the particular acquisition.
- b. Evaluation Criteria. If the CO does not give specific notice in writing to the contractor of any change to the evaluation criteria prior to the start of a new evaluation period, then the same criteria listed for the preceding period will be used in the following award-term evaluation period. Modifications to the plan shall take effect in the next evaluation period.
- c. Interim Evaluation Process. Interim evaluations will be conducted at least every six months beginning with the date of contract award. At the discretion of the TDO, interim evaluations may take place more frequently, (e.g., at major milestones). The ATRB recorder notifies ATRB members and performance monitors 14 calendar days before the midpoint of the evaluation period.

Performance monitors submit their evaluation reports to the ATRB 21 calendar days after this notification. The ATRB determines the interim evaluation results and notifies the contractor of the strengths and weaknesses for the current evaluation period. The CO may also issue letters at any other time when it is deemed necessary to highlight areas of government concern.

- d. End-of-Period Evaluations. The ATRB recorder notifies ATRB members and performance monitors 14 calendar days before the end of the evaluation period. The contractor presents its self-assessment to the CO within five working days after the end of the evaluation period. This written assessment of the contractor's performance throughout the evaluation period may also contain any information that could be reasonably expected to assist the ATRB in evaluating its performance. The self-assessment may not exceed 10 pages. Performance monitors submit their evaluation reports to the ATRB 14 calendar days after the end of the evaluation period. The ATRB forwards copies to the contractor. The performance monitors provide oral presentations to the ATRB 21 days after the end of the evaluation period. The contractor is then given an opportunity to address the performance monitor evaluations. The ATRB prepares its evaluation report and recommendation regarding earned or unearned award-term points. The ATRB briefs the evaluation report, and recommendation to the TDO within 30 calendar days after the end of the evaluation period. The TDO determines the overall award-term points for the evaluation period within 45 calendar days after each evaluation period. The TDO letter informs the contractor of the earned award-term points and the total cumulative points. Upon the accumulation of sufficient award-term points, the CO issues a contract modification within 15 calendar days after the TDO's decision is made authorizing an award extension or reduction based on the earned or unearned award-term points.

## 5.0 Award-term Plan Change Procedures

Proposed changes to the award-term plan will be bilateral. If either party desires a change to the award-term plan and a mutual agreement cannot be reached, the original award-term plan will remain in effect.

## 6.0 Evaluation Factors for the Award Term Plan

### a. Quality

#### 1) Results of quality measurements

- 2) System Response Time
- 3) System Up Time
- b. Customer Relations/Satisfaction
  - 1) Results of Customer Satisfaction Measures
  - 2) Timely Response to Government Requests
  - 3) Timely Response to Help Desk Requests
- c. Socio-Economic Goal Achievement
  - 1) Contractor's Good Faith Efforts and Success Rate in Meeting and Exceeding the Subcontracting Goals included in the approved Subcontracting Plan
  - 2) Timely Compliance With Contract Reporting Requirements
  - 3) Mentoring Activities For The Various Small Business Program Subcontractors Working On The Project
- d. Program and Configuration Management
  - 1) Establishment of effective project and program controls including metrics
  - 2) Timely Implementation of Approved Changes
  - 3) Effectiveness of Communication with Government Representatives
  - 4) Meeting Approved Schedules

**Background**

The Federal Procurement Data Center (FPDC), as a result of Public Law 93-400, has been given the sole task of collecting, processing, and disseminating data in respect to Federal Agency procurement process (see <http://www.fpsc.gov>). The data being collected has accumulated since 1978 and grows in accordance with Federal Procurement Trends. This data is aggregated into a single database, the Federal Procurement Data System (FPDS), which is queried by any number of Federal Agencies for a variety of analytical purposes. Public Law 93-400 similarly requires that FPDS publish an annual report, which provides a snapshot of over 60 Federal Agencies with detailed reports included for agency contracts over \$25,000 and summarized reports for agencies under \$25,000. The U.S. Government procurement activities in fiscal year 1998 totaled over 2 billion dollars. In addition, on behalf of the Office of Federal Procurement Policy (OFPP) and serves on the Interagency Subcommittee established to assist the Policy Advisory Board Chairman.

The FPDC processes approximately 1,000 data request annually. These requests are issued for congress, executive agencies, the media and private sector organizations. Request for data are expected to increase in association with Federal Procurement Trends and are received through a distributed network.

**The FPDC provides the following Government-wide Services:**

- X. Processes approximately 500,000 Individual Contract Action Report (ICAR) records annually
- XI. Provides FPDS data quarterly to
  - a. Office of Federal Contract Compliance, US Department of Labor (DOL)
  - b. Small Business Administration (SBA), General Accounting Office (GAO), US Department of Commerce (DOC), US Department of Defense (DOD), Federal Supply (GSA), and GSA's Data Warehouse Program
- XII. Provides FPDS data annually to
  - a. Census
  - b. US Trade Representative Office
  - c. Commercial entities for resale
- XIII. Publishes the annual Federal Procurement Report (FPR), which provides "special" processing to agencies, industry, and private firms

Several modifications to the FPDS are pending. The list of pending modifications is as follows:

- XIV. ADA v. RAND - this is an active Federal court case involving the legality of the use of minority preference programs in Federal contracting. Depending upon the outcome of the case.
- XV. HUB Zones – Per Title IV of the SBA Reauthorization Bill, the HUB Zones program was established to provide Federal contracting assistance to historically underutilized business zones. Depending upon the outcome of this program.

XVI. Contracting Bundling – Per Title IV of the SBA Reauthorization Bill, this is the consolidation of two or more procurement requirements for goods and services previously provide or performed under separate smaller contracts.

## **System Inventory and Description**

**The computer systems installed at the FPDC include:**

- XVII. A Dell Power Edge 4300, which serves as the Primary Domain Controller (PDC)
- XVIII. A Dell Power Edge 2450, which serves as a Web Server
- XIX. A Compaq Proliant 1500, which is a Winframe Server
- XX. A Dell Power Edge 6350, which serves as an Oracle Application Server
- XXI. A Dell Power Edge 6350, which serves as a Oracle Data Server – Development and Backup Domain Controller (BDC)
- XXII. A Dell Power Edge 6350, which serves as a Oracle Data Server – Production Server
- XXIII. A Dell Power Edge 2450, which will serve as a Terminal Server
- XXIV. Dell Power Vault 650F
- XXV. Two Dell Power Vaults 2105
- XXVI. 1 Compaq DLT Drive with one 35/70 GB DLT
- XXVII. 1 Compaq DLT Drive with two 35/70 GB DLT
- XXVIII. 3 APC Smart-UPS
- XXIX. 1 LaserJet 8000DN
- XXX. 1 Color LaserJet 5
- XXXI. 1 LaserJet 5SiMX
- XXXII. 1 LaserJet 4V

## **Relationships between Servers and Workstations**

Each server is largely independent of all others. Except for having the FPDS PDC running, there is no need to have any of the others running before booting. Some of the servers have drive mappings to the PDC. The keyboard and mouse are shared resources among all servers.

This is a Windows NT 4.0 network. The Default Gateway is 159.142.126.65 and the Subnet Mask is 255.255.255.192. The FPDS workstations are running DHCP with IP addresses being distributed by the PDC.

The PDC (in the P:\MailSystem directory) serves as an SMTP mail sender. Any other server only needs to copy mail to the P:\MailSystem\AutoMail directory in order for the message to be sent.

**The system is based on a Fiber Distribution Data Interface (FDDI) Local Area Network (LAN) with the following components:**

### **Concentrator**

The majority of the cables run to this box. It has a set of FDDI modules and a set of 10BaseT Ethernet modules.

### **EIFO**

Ethernet to FDDI switch. Primary use is to connect the FDDI segment to the GSA LABN. Also used to connect between the Ethernet (10BaseT) and FDDI segments.

**Ethernet 10BaseT to 10BaseF Transceiver**

Used to convert from 10BaseT to 10BaseF (fiber Ethernet) for the long haul connection to the LABN (the LABN router that is our port into LABN is in a 2<sup>nd</sup> floor computer room). This is sitting on top of the EIFO.

**FDDI Optical and Copper Segment**

All of the servers are connected into at the FDDI ring using fiber optic cable. There is only one workstation that is not connected to the FDDI ring.

**Ethernet 10BaseT Segment(s)**

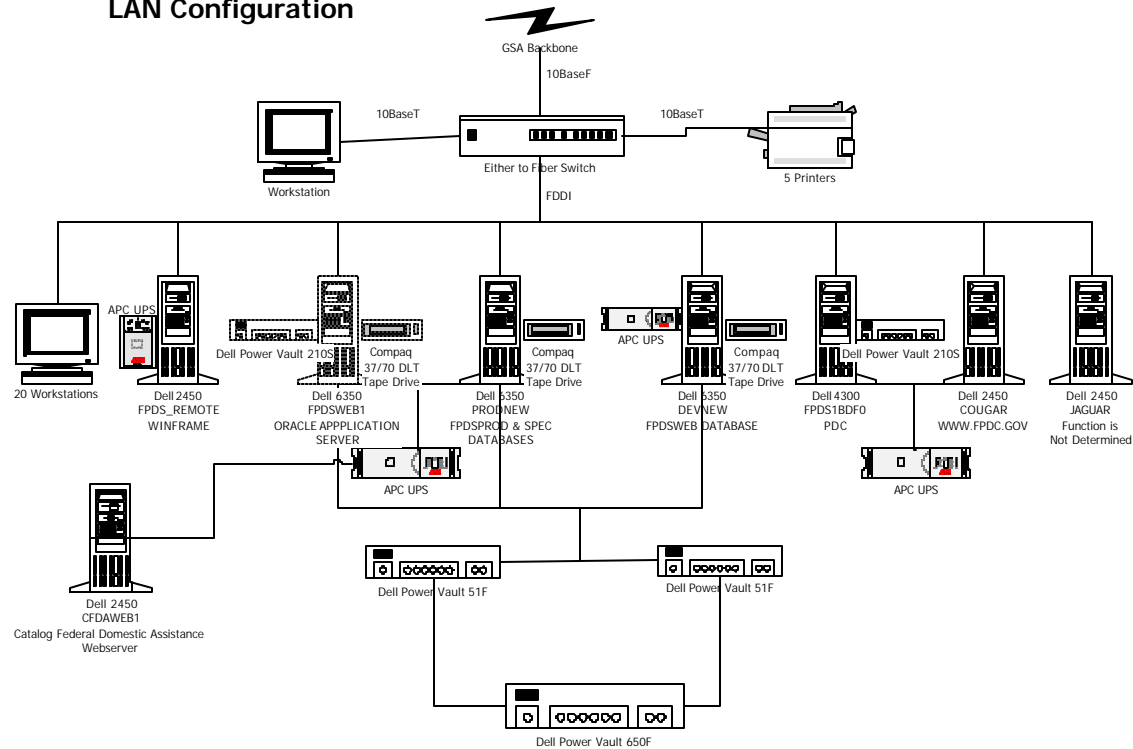

The printers are attached to the Ethernet segment.

## Wiring Configuration

The premise wiring is all category 5 unshielded twisted pair wired using the 568-B standard. This is a “straight through” wiring standard. In the computer room, you also use “straight through” jumpers to patch between the patch panel and the concentrator. The above are true for both FDDI and Ethernet cabling. On the workstation/printer end of things, Ethernet devices again use “straight through” cabling, but the FDDI cables are different.

### **FPDS Domain - Server Name: FPDS1BDF0 159.142.126.73**

#### **System Function**

FPDS Primary Domain Controller (PDC) serves as a home directory for FPDC employees, DHCP host, and applications specific for FPDS. It is also servers as print server. It has one connection to the Power Vault 51F Switch. The PDC is attached to a Power Vault 210S and shares a UPS with FPDS a Web Server (Cougar).

#### **Hardware Components**

Dell Power Edge 4300 Service Tag #1BDF0 has the following components:

- Three 9.1 GB hard drives
- Dual Processors, 400MHz, 512K cache on each
- DIMM 256 RAM @ 100Mhz
- CD-ROM
- Network Interface Card, IBM, PCI, 16/4
- Tape Backup external
- Floppy Drive
- Raid Card – PCI/S, 64B
- DIMM 128 RAM on RAID Card
- RAID Card
- Fiber Channel Adapter/Q Logic Card

## WORKSTATION CONFIGURATION

Each workstation has approximately a 10GB Hard drive, which is then partitioned into two drives, lettered C and D. The C drive is configured to the WINNT standards and contains applications that are required for the FPDC. The D drive is a working/storage drive and contains applications that are also required for the FPDC.

The following outline the steps required to install and setup a workstation.

1. Add user to the Domain server. Enter user's full name. Leave description blank. For password, enter user's Network password.
2. On FPDS1FDB0, create user personal directory on the **I:** drive.
3. Install Network Interface Card.
4. Boot PC. If you see an Alert message at boot-up, quickly press the <**F2**> function key while message displayed. Change the **Chasis Intrusion** setting to **Enable**.
5. During NT install on the workstation, when prompted for Name and Organization enter **FPDS** and **GSA** respectively.
6. Once network card is installed, select TCP/IP Protocol and select DHCP **"Yes."**
7. Enter the computer **Dell System Service Tab ID** for the Computer Name. Select Domain login and enter the Domain Name **"FPDS."** Do check the create computer account box. Use the administrator's login to create the account.
8. Map **F:** drive to [\\FPDS1BDF0\F](#) using.
9. Set the boot up time to 10 seconds.

10. Change Virtual Memory and Registry Size. Change the paging file from C: to the larger partition. Leave 2MB paging file on C. Change the Virtual Memory to 2MB. Change the size to 24.
11. Install WinZip for Windows.

25. Set drive mappings as: **F: = \\FPDS1BDF0\F**, **S: = \\FPDS1BDF0\S** (specials and tech support), **I: = \\FPDS1BDF0\I**, **P: = \\FPDS1BDF0\P** (production staff and tech support)
26. Connect network printers.

27. Configure desktop.

28. Enable VirusScan.

## **FPDS BACKUP PROCEDURES**

### **Backup Procedures for the Domain Controller Server Name FPDS1BDF0**

1. Label Tape with server info and date
2. Map drive to server being backed up
  - a. Map F, I, P, S and C drives.
1. Verify Drive mappings by selecting the drives being backed up
2. Launch Backup
3. Provide a description of the tape, i.e. list which server is being backed up
4. Once Backup is completed, a dialog box will appear indicating Backup status. It will state "Backup Status – Completed Successfully."

5. Eject Tape
6. Launch Notepad
7. In Explorer, view <c:/winnt/backup.log>
8. Locate the beginning line of backup just preformed, highlight and copy. Launch notepad and print the log
9. Print file log, rubber band it to the tape and store in safe.

## **Backup Procedures for Oracle Databases PROD, SPEC, FPDSWEB on Servers PRODNEW and DEVNEW**

**NOTE: Notify users that services will be down via status screen. This is a manual process.**

Notification on the Web-Server - Cougar: Launch MS FrontPage

Edit the agency.htm and customer.htm by deleting the comment characters in the HTML layout. Edit the dates to indicate the start and stop times when services will not be available.

## **Notification on the WINFRAME**

Log-in as “minist”, obtain password from IT personnel. Locate and launch Editeur.

Open daily.warn.msg file located in the directory [x:/winframe/profiles](#).

Edit Daily.warn.msg:

Row 6 - Change date to the date you are editing the message.

Row 7 & 9 - Change message to indicate the start and stop date when services will be unavailable. Save file, then save as daily.msg

### **Backing up FPDSPROD Database**

1. Launch FPDSPROD SVR MGR, if not connected, at the command prompt enter “CONNECT SYS AS SYSDBA”. The command is “SHUTDOWN IMMEDIATE”. It will take a few seconds, maybe a minute to dismount the database.

NOTE: Occasionally Oracle will not shut down immediately, then use “Control-C” to kill the process. Once the SVR MGR prompt is back, type the command “SHUTDOWN ABORT”. Use this procedure as a last measure to shutdown the database.

2. Map Drives, including C drive
3. Launch Backup
4. Provide a description of the tape, i.e. list which server is being backed up and date.
5. Once Backup is completed a dialog box will appear indicating Backup status. It will state “Backup Status – Completed Successfully.
6. Eject tape.
7. Launch Notepad
8. In Explorer, view [c:/winnt/backup.log](#)

9. Locate the beginning line of backup just preformed.
10. Delete all preceding lines of text.
11. Save to another drive to print, preferably the IT person conducting the backup  
**NOTE: Do not save the file log.**
12. Start Oracle services. Change from manual start to automatic start and reboot.  
Launch FPDSPROD SVR MGR. At the command prompt type "CONNECT  
SYS AS SYSDBA". Once connected type "STARTUP".
13. Notify users that the services are now available, by logging on to Winframe and  
edit the daily.msg to daily.good.msg. For the Webserver add the comment tags to  
the following files: agency.htm and customer.htm.

**Backing up SPEC Database**

1. Launch SPEC SVR MGR, if not connected, at the command prompt enter "CONNECT SYS AS SYSDBA". The command is "SHUTDOWN IMMEDIATE". It will take a few seconds, maybe a minute to dismount the database.

NOTE: Occasionally Oracle will not shut down immediately, then use "Control-C" to kill the process. Once the SVR MGR prompt is back, type the command "SHUTDOWN ABORT". Use this procedure as a last measure to shutdown the database.

## POWERING SEQUENCE

1. Power on the COMPAQ DLT Tape Drives and wait for it to finish the boot sequence.
2. Power on the switches PV 50/51F and allow 2 minutes to boot.
3. Power on the bridge PV 650F

It is imperative that the PV 650F be powered on/off by using the toggle switches on the storage processor battery.

This allows the PV 650F to flush the cache properly. If the PV 650F is powered on/off at the power supplies behind the fan pack, cache could be lost.

4. Boot Servers – Power on the FPDS Domain Server (FPDS1BF0) first. The order after this does not ma
5. Start all the services on each server.

Note: To power down the system is in the reverse sequence.

**J15 – GSA Computer Facility Information**

Location: GSA Headquarters office building located at 1800 F Street, NW, Washington, DC 20405.

Space Available for FPDS-NG: Space will be provided for any required equipment. Use of rack-mounted components is preferred.

Network: 10/100 Ethernet, copper or fiber.

Telecomm: GSA will provide any required telecommunications services.

Security: The facility is secured. Only authorized personnel may open the doors. Facility security includes biometric identification and video surveillance. Fire control systems that do not use water will be in place.

Electrical Power: Reliable electrical power is available (battery and generator backup). Standard electrical services are available. Advance coordination is required to ensure correct service and connectors are provided.

Services to be provided by facility manager: The Facility Manager will perform operating system security related maintenance and may perform scheduled backups with prior arrangement. Any other operating system changes must be coordinated in advance with the Facility Manager.

Site Visit: Vendors may visit the GSA Computer Facility on November 5, 2002. Visits will be scheduled to begin at 9:00am, 10:00am, and 11:00am. Vendors that wish to visit the facility must schedule a specific time. Contact the Contracting Officer not later than noon, November 4<sup>th</sup>, to schedule the visit (information required: 1) company name, 2) visitor's name, 3) preferred time, and 4) whether visitor has a government issued building pass). A maximum of two people per company may attend. The visit may last up to 30 minutes. Facility staff will be available to answer questions. Building entry requires a photo ID plus escort or Government issued building pass. Arrive sufficiently early to assure you are admitted. Meet in the entrance lobby.

Costs and Limitations: The cost of use of the GSA Computer Facility will be born by GSA. GSA will accept any performance, reliability, security, and cost implications related to use of the Facility.

Questions: Questions about the GSA Computer Facility should be included with other questions due to the Contracting Officer as specified elsewhere in the RFP.

Coordination: The facility contact information will be provided after contract award.

## CONTRACTOR SECURITY REQUIREMENTS

### SECURITY REQUIREMENTS

The contractor shall adhere to all security-related laws, requirements and regulations that bind the government. Contractor personnel involved in the management, operation, programming, maintenance, and/or use of information technology shall be aware of these responsibilities and fulfill them. Detailed security responsibilities for the contractor are found in the GSA Orders/Handbooks listed in Attachment # 1 of this document.

The contractor shall update all information quarterly, as necessary, unless there are mitigating circumstances or GSA requests exceptions.

All files, records, papers, and/or machine-readable materials created by the contractor are the property of the government. The contractor shall not replicate or reproduce information unless authorized in writing by the appropriate government official.

The contractor shall take adequate precautions to ensure that computer viruses/malicious software does not adversely affect government systems/software.

The contractor shall be responsible for installing the latest security patches and also for all servers using the GSA approved Hardening Guides.

The contractor shall be responsible for disposal of sensitive material including the triple overwriting all hard drives before disposal and /or transfer of equipment - both internal and external to GSA. The contractor shall destroy or degauss other removal media containing sensitive information (i.e. floppy drives, CDs, tapes)

The contractor shall be responsible for backup and restoration procedures for all equipment.

The contractor shall ensure that any contractor-furnished equipment and material utilized commercial duly licensed software. No bootleg, pirated or unofficial software copies shall be installed on equipment. The contractor shall be responsible for providing proof of legitimate purchase or license of software.

The contractor is responsible for the security training of all contractor personnel who have access to computer equipment. The contractor shall be responsible for taking any training mandated for GSA associates. This includes but is not limited to security awareness training and other more advanced computer training for administrators and security personnel.

The contractor shall comply with GSA Order 2100.1 - IT Security Policy and GSA Order ADM P 9732.1C - Suitability and Personnel Security (chapter 6). GSA has determined that contractors who design, operate, test, maintain, and/or monitor GSA systems shall be required to have a minimum background investigation of National Agency Check with Inquires Credit (NACIC). More extensive background checks may be required based on risk levels as defined in GSA Order ADM P 9732.1C. The contractor shall submit proposed risk levels for government approval based on the criteria in GSA Order ADM P 9732.1C for all contractor Information Technology

positions. These risk levels will subsequently be used in determining the proper background investigation required for each position.

The contractor shall agree to comply with applicable GSA Information Technology (IT) Security Policies, e.g., GSA Order CIO 2100.1, GSA Information Technology (IT) Security Policy.

The contractor shall provide and maintain a list, known as the “approved personnel list”, of the names of the contract personnel who are approved to have access to GSA networks.

The contractor shall agree that access to GSA networks shall be limited to personnel named on the approved personnel list.

The contractor shall agree that the establishment and use of passwords and password controls will be consistent with GSA Order CIO 2100.1, GSA Information Technology (IT) Security Policy and provide GSA written evidence that appropriate policies and controls that are or have been established.

The contractor shall agree; 1) to establish and implement the processes and mechanisms to change passwords for accessing GSA networks in accordance with GSA Order CIO 2100.1, GSA Information Technology (IT) Security Policy and provide GSA written evidence that such processes and mechanisms have been established and implemented, and are being followed.

The contractor shall agree, to implement, in accordance with GSA Information Technology Security Policy and/or specific GSA requirements, the use of biometric identification technology, e.g., SmartCard and Fingerprint or other form, that verifies the identity of the individual using the system to ensure system access is limited to the individuals on the approved personnel list.

The contractor shall agree to designate in writing Information System Security Officers who are knowledgeable of the technology and responsible for ensuring there is adequate security for the networks, including ways to prevent, detect, and recover from security problems.

The contractor shall agree to allow GSA to set up, or make the arrangements to set up, and/or inspect the access control security features for the contractor PCs that will be connecting to GSA networks.

The contractor shall agree to establish and implement audit trails that identify who is accessing GSA systems and when, and make these audit trail reports available to GSA upon request.

The contractor shall agree to establish and implement an immediate reporting methodology for any detected variations from this agreement including any remote access by any unauthorized organization or possible accidental exposure and provide a written copy of the methodology to GSA.

The contractor shall agree to establish and implement methods for reporting in writing to GSA any usage of CA Unicenter, outside the automatic alarms.

The contractor shall agree to establish and implement processes that require approval by GSA, in advance, for any access including software maintenance.

Upon written notification and/or evidence that the contractor has complied with the above requirements, GSA authorizes the contractor to establish the needed connections to GSA general

and specific networks. Continued authority to connect to GSA networks shall be contingent upon the contractor agreeing to submit and then maintain a security plan for the contractor networks, which have access to GSA networks. The security plan shall be compliant with the requirements and format outlined in the GSA Information Technology Security Policy, and describe the security controls that have been implemented or planned in each area addressed by GSA Information Technology Security Policy. The security plan format shall be IAW NIST 800-18.

The contractor shall agree to have employees named on the approved employee list to execute a Non-disclosure and Conflict of Interest form.

#### PROTECTION OF INFORMATION.

If access to classified materials is required for completion of the task, the contractor shall supply personnel with appropriate security clearances for these portions of the task. The contractor shall be responsible for properly protecting all information used, gathered, or developed as a result of work under Delivery/Task Orders, and/or DD Form 254 of the contract. Beyond protecting CLASSIFIED information, the contractor shall also protect all UNCLASSIFIED government data, equipment, etc by treating the information as sensitive.

#### Security and Privacy

The use of any information that is subject to the Privacy Act shall be utilized in complete accordance with all rules of conduct as applicable to Privacy Act Information.

#### Security Classification

The preparation of the deliverables in this delivery order shall be completed at a level to be determined. If classified, the preparation of the document shall be accomplished at both a cleared Government facility and the contractor's cleared facility and therefore all contractor personnel assigned to work on this contract shall be subject to routine background investigations.

#### WORK LOCATIONS.

Classified Facilities. This effort may require access to Sensitive Compartmented Information (SCI) at U.S. Government facilities only. If this becomes necessary, additional requirements will be found in the DD Form 254 and special requirements shall be addressed in individual delivery orders with a separate DD254.

Classified Storage. The contractor may need to establish and maintain a classified facility and procedures for receipt, storage and generation of classified material in accordance with the National Industrial Security Program Operating Manual (NISPOM) (DOD 5220.22-M); and Contract Security Classification Specification (DD Form 254); and appropriate security instructions or guidelines. No classified or COMSEC information shall be sent to or stored at the facility before it has been granted a facility clearance and storage capability as defined by Defense Security Service (DSS). Storage of Classified documents shall be at the designation stated in each individual delivery/task order and in accordance with the DD Form 254. If a requirement to store classified information is imposed, it will be identified in the individual delivery/task order and the requirements will be contained in the accompanying DD Form 254.

Sensitive Information Storage. Sensitive But Unclassified information, data, and/or equipment will only be disclosed to authorized personnel with a Need-To-Know as described in the delivery/task order and/or DD Form 254. The holder shall ensure that appropriate administrative,

technical, and physical safeguards are established to ensure the security and confidentiality of this information, data, and/or equipment is properly protected. When no longer required, this information, data, and/or equipment will be returned to Government control; destroyed; or held until otherwise directed. Items returned to the Government shall be handcarried or mailed to GSA or address prescribed in the delivery/task order and/or DD Form 254. Items destruction shall be accomplished by tearing into small parts; burning; shredding or any other method that precludes the reconstruction of the material.

**K Representations, Certifications and Other Statements of Offerors****K.1 FAR 52.203-2 Certification of Independent Price Determination (Apr 1985)**

(a) The offeror certifies that—

- (1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to—
  - (i) Those prices;
  - (ii) The intention to submit an offer; or
  - (iii) The methods or factors used to calculate the prices offered.
- (2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and
- (3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory—

- (1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision; or
- (2) (i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision  
\_\_\_\_\_ [insert full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization];

- (ii) As an authorized agent, does certify that the principals named in subdivision (b)(2)(i) of this provision have not participated, and will not participate, in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision; and (iii) As an agent, has not personally participated, and will not participate, in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision.
- (c) If the offeror deletes or modifies subparagraph (a)(2) of this provision, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

**K.3 52.204-5 Women-Owned Business (Other Than Small Business) (May 1999)**

- (a) Definition. Women-owned business concern, as used in this provision, means a concern that is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of its stock is owned by one or more women; and whose management and daily business operations are controlled by one or more women.
- (b) Representation. [Complete only if the offeror is a women-owned business concern and has not represented itself as a small business concern in paragraph (b)(1) of FAR 52.219-1, Small Business Program Representations, of this solicitation.] The offeror represents that it ☐ is, ☐ is not a women-owned business concern.

**K.4 52.209-5 Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters (Dec 2001)**

- (a) (1) The Offeror certifies, to the best of its knowledge and belief, that –
- (i) The Offeror and/or any of its Principals –
- (A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (B) Have ☐ have not ☐, within a 3-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion or receiving stolen property; and
- (C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision (a)(1)(i)(B) of this provision.
- (ii) The Offeror has ☐ has not ☐, within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

- (2) "Principals," for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER SECTION 1001, TITLE 18, UNITED STATES CODE.

- (b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
- (d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

**K.5 52.215-6 Place of Performance (Oct 1997)**

- (a) The offeror or respondent, in the performance of any contract resulting from this solicitation, [ ] intends, [ ] does not intend [check applicable block] to use one or more plants or facilities located at a

different address from the address of the offeror or respondent as indicated in this proposal or response to request for information.

- (b) If the offeror or respondent checks "intends" in paragraph (a) of this provision, it shall insert in the following spaces the required information:

Place of performance (street address, city, state, county, ZIP code)	Name and address of owner and operator of the plant or facility if other than offeror or respondent

- (iii) Be ineligible for participation in programs conducted under the authority of the Act.

(End of Provision)

*Alternate I (Apr 2002).* As prescribed in 19.307(a)(2), add the following paragraph (b)(7) to the basic provision:

(7) [*Complete if offeror represented itself as disadvantaged in paragraph (b)(2) of this provision.*] The offeror shall check the category in which its ownership falls:

\_\_\_ Black American.

\_\_\_ Hispanic American.

\_\_\_ Native American (American Indians, Eskimos, Aleuts, or Native Hawaiians).

\_\_\_ Asian-Pacific American (persons with origins from Burma, Thailand, Malaysia, Indonesia, Singapore, Brunei, Japan, China, Taiwan, Laos, Cambodia (Kampuchea), Vietnam, Korea, The Philippines, U.S. Trust Territory of the Pacific Islands (Republic of Palau), Republic of the Marshall Islands, Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, Guam, Samoa, Macao, Hong Kong, Fiji, Tonga, Kiribati, Tuvalu, or Nauru).

\_\_\_ Subcontinent Asian (Asian-Indian) American (persons with origins from India, Pakistan, Bangladesh, Sri Lanka, Bhutan, the Maldives Islands, or Nepal).

\_\_\_ Individual/concern, other than one of the preceding.

**K.7 52.219-22 Small Disadvantaged Business Status (Oct 1999)**

(a) *General.* This provision is used to assess an offeror's small disadvantaged business status for the purpose of obtaining a benefit on this solicitation. Status as a small business and status as a small disadvantaged business for general statistical purposes is covered by the provision at FAR 52.219-1, Small Business Program Representation.

(b) Representations.

(1) *General.* The offeror represents, as part of its offer, that it is a small business under the size standard applicable to this acquisition; and either-

\_\_\_(i) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR 124, Subpart B; and

(A) No material change in disadvantaged ownership and control has occurred since its certification;

(B) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(C) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PRO-Net); or

\_\_\_(ii) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in

disadvantaged ownership and control has occurred since its application was submitted.

(2) *For Joint Ventures.* The offeror represents, as part of its offer, that it is a joint venture that complies with the requirements at 13 CFR 124.1002(f) and that the representation in paragraph (b)(1) of this provision is accurate for the small disadvantaged business concern that is participating in the joint venture. *[The offeror shall enter the name of the small disadvantaged business concern that is participating in the joint venture: \_\_\_\_\_.]*

(c) *Penalties and Remedies.* Anyone who misrepresents any aspects of the disadvantaged status of a concern for the purposes of securing a contract or subcontract shall:

- (1) Be punished by imposition of a fine, imprisonment, or both;
- (2) Be subject to administrative remedies, including suspension and debarment; and
- (3) Be ineligible for participation in programs conducted under the authority of the Small Business Act.

(End of provision)

*Alternate I (Oct 1998).* As prescribed in 19.307(b), add the following paragraph (b)(3) to the basic provision:

(3) *Address.* The offeror represents that its address \_\_ is, \_\_ is not in a region for which a small disadvantaged business procurement mechanism is authorized and its address has not changed since its certification as a small disadvantaged business concern or submission of its application for certification. The list of authorized small disadvantaged business procurement mechanisms and regions is posted at <http://www.arnet.gov/References/adbadjustments.htm>. The offeror shall use the list in effect on the date of this solicitation. "Address," as used in this provision, means the address of the offeror as listed on the Small Business Administration's register of small disadvantaged business concerns or the address on the completed application that the concern has submitted to the Small Business Administration or a Private Certifier in accordance with 13 CFR part 124, subpart B. For joint ventures, "address" refers to the address of the small disadvantaged business concern that is participating in the joint venture.

**K.8 52.222-22 Previous Contracts And Compliance Reports (Feb 1999)**

The offeror represents that-

- (a) It [ ] has, [ ] has not participated in a previous contract or subcontract subject to the Equal Opportunity clause of this solicitation; the clause originally contained in Section 310 of Executive Order No. 10925, or the clause contained in Section 201 of Executive Order No. 11114;
- (b) It [ ] has, [ ] has not filed all required compliance reports; and
- (c) Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

**K.9 52.222-25 Affirmative Action Compliance (Apr 1984)**

The offeror represents that-

- (a) It [ ] has developed and has on file, [ ] has not developed and does not have on file, at each establishment, affirmative action programs required by the rules and regulations of the Secretary of Labor (41 CFR 60-1 and 60-2), or (b) It [ ] has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

**K.10 52.227-15 Representation of Limited Rights Data and Restricted Computer Software (May 1999)**

- (a) This solicitation sets forth the work to be performed if a contract award results, and the Government's known delivery requirements for data (as defined in FAR 27.401). Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause at 52.227-16 of the FAR, if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data-General clause at 52.227-14 that is to be included in this contract. Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data in lieu thereof. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of

Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

- (b) As an aid in determining the Government's need to include Alternate II or Alternate III in the clause at 52.227-14, Rights in Data-General, the offeror shall complete paragraph (c) of this provision to either state that none of the data qualify as limited rights data or restricted computer software, or identify, to the extent feasible, which of the data qualifies as limited rights data or restricted computer software. Any identification of limited rights data or restricted computer software in the offeror's response is not determinative of the status of such data should a contract be awarded to the offeror.
- (c) The offeror has reviewed the requirements for the delivery of data or software and states [offeror check appropriate block]—

[ ] None of the data proposed for fulfilling such requirements qualifies as limited rights data or restricted computer software.

[ ] Data proposed for fulfilling such requirements qualify as limited rights data or restricted computer software and are identified as follows:

---

---

Note: "Limited rights data" and "Restricted computer software" are defined in the contract clause entitled "Rights in Data—General."

#### **K.11 52.230-1 Cost Accounting Standards Notices and Certification (Jun 2000)**

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, Part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

## I. Disclosure Statement -- Cost Accounting Practices and Certification

(a) Any contract in excess of \$500,000 resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR Chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

\* (1) *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official and/or from the loose-leaf version of the Federal Acquisition Regulation.)

Date of Disclosure Statement: \_\_\_\_\_  
Name and Address of Cognizant ACO or Federal  
Official Where Filed: \_\_\_\_\_

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

*\* (2) Certificate of Previously Submitted Disclosure Statement.*

The offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement: \_\_\_\_\_  
Name and Address of Cognizant ACO or Federal  
Official Where Filed: \_\_\_\_\_

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

*\* (3) Certificate of Monetary Exemption.* The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

*\* (4) Certificate of Interim Exemption.* The offeror hereby certifies that

(i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and

(ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will

immediately submit a revised certificate to the Contracting Officer, in the form specified under subparagraph (c)(1) or (c)(2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

## II. Cost Accounting Standards -- Eligibility for Modified Contract Coverage

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

\* The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

Caution: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

## III. Additional Cost Accounting Standards Applicable to Existing Contracts

The offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

\* yes \* no

(End of revision)

*Alternate I (Apr 1996).* As prescribed in 30.201-3(b), add the following subparagraph (c)(5) to Part I of the basic provision:

\* (5) *Certificate of Disclosure Statement Due Date by Educational Institution.* If the offeror is an educational institution that, under the transition provisions of 48 CFR 9903.202-1(f), is or will be required to submit a Disclosure Statement after receipt of this award, the offeror hereby certifies that (check one and complete):

\* (i) A Disclosure Statement Filing Due Date of \_\_\_\_\_ has been established with the cognizant Federal agency.

\* (ii) The Disclosure Statement will be submitted within the 6-month period ending \_\_\_\_\_ months after receipt of this award.

Name and Address of Cognizant ACO or  
Federal Official Where Disclosure  
Statement is to be Filed: \_\_\_\_\_

**K.12 52.203-11 Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions (Apr 1991) (Deviation)**

(a) The definitions and prohibitions contained in the clause, at FAR 52.203-12, Limitations on Payments to Influence Certain Federal Transactions, included in this solicitation, are hereby incorporated by reference in paragraph (b) of this certification.

(b) The offeror, by signing its offer, hereby certifies to the best of his or her knowledge and belief that on or after December 23, 1989,—

(1) No Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her

behalf in connection with the awarding of a Federal contract resulting from this solicitation;

- (2) If any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with this solicitation, the offeror shall complete and submit, with its offer, OMB standard form LLL, Disclosure of Lobbying Activities, to the Contracting Officer; and
- (3) He or she will include the language of this certification in all subcontract awards at any tier and require that all recipients of subcontract awards in excess of \$100,000 shall certify and disclose accordingly.
- (c) Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by section 1352, title 31, United States Code. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure form to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

**L. INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS****L.1 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE**

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The Offeror is cautioned that the listed provisions may include blocks that must be completed by the Offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the Offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this address: <http://www.arnet.gov/far/>

**L.2 FAR CLAUSES INCORPORATED IN FULL TEXT****52.233-2 SERVICE OF PROTEST (AUG 1996)**

Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the General Accounting Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining

written and dated acknowledgment of receipt from:

Michael O. Jackson, Contracting Officer  
General Services Administration  
FPDS Reengineering Program Office  
1800 F Street Room 4006  
Washington, DC 20405

The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

### **L.3 TYPE OF CONTRACT**

The Government contemplates award of a single Fixed Price incentives type contract with performance-based and/or cost incentives.

### **L.4 REQUEST FOR CLARIFICATION**

Please submit all questions regarding this solicitation no later than 12:00 noon, Eastern time, 10 calendar days after publication in Federal Business Opportunities, via email to:

[Michael.Jackson@GSA.Gov](mailto:Michael.Jackson@GSA.Gov)

### **L.5 ALTERNATE PROPOSALS AND MULTIPLE SUBMISSIONS**

If the offeror chooses to propose multiple business approaches or alternatives to the business approaches listed in B.2, the offeror must submit complete and separate proposals for each approach in accordance with these proposal instructions.

### **L.6 PRE-AWARD SURVEY**

The Government may conduct a complete or partial pre-award survey of prospective Offerors. The following factors, while not all inclusive, may be investigated during the survey and any findings will be considered in the evaluation process:

1. Technical Capability
2. Financial Capability
3. Purchasing and subcontracting
4. Accounting System
5. Quality Assurance Capability
6. Labor Resource
7. Performance Record

8. Ability to meet required schedule
9. Ability to provide the required support

## **L.7 EXCHANGES WITH OFFERORS**

The Government may engage in exchanges with Offerors in accordance with FAR 15.306. Discussions with Offerors will be based on the Government's integrated assessment and analysis of the Offerors' proposal and conducted for the purpose of maximizing the Government's ability to obtain best value, based on the requirement and evaluation factors set forth in the solicitation.

The Government intends to use electronic media to the fullest extent for this solicitation. The Government will post amendments, questions & answers, announcements, and other information to Federal Business Opportunities (FEDBIZOPPS or FBO) web page. Potential offerors are responsible for checking the web page regularly to ensure they receive all the latest updates. In addition, the Government has also established a FPDS-NG web page at <http://www.acqnet.gov/egov/famis/famis2.html>, offerors are encouraged to visit the website on a regular basis.

## **L.8 PROPOSAL FORMAT AND SUBMISSION INSTRUCTIONS**

Each proposal shall consist of two volumes.

- Volume 1, Technical, will cover Program Management, Corporate Past Performance and Experience, Technical Solution, and Staffing. Volume 1 is limited to 75 pages for all material submitted.
- Volume 2, Business, will provide price/cost information and the subcontracting plan. Volume 2 does not have a page limit.

Each volume shall be in English and marked with solicitation number, title, option proposed, and Offeror's name.

Excessive material inhibiting easy access to the price/cost information will be interpreted as an increased risk to the Government.

Pages shall be numbered. Bookmarks are encouraged. Front matter (title pages, tables of contents, cross-reference matrices, acronym lists, and glossaries) may be provided solely for the purpose of easing evaluation.

The typewritten or printed letters shall be no smaller than 10 point or equivalent as the minimum size standard, with no reduction permitted except organization charts or other graphic illustrations; in those

instances where reduction is allowable (no smaller than 10 point recommended), Offerors shall ensure that the print is easily readable. Each page shall have not less than one-inch margins on each side of the page. Header/footer information (which does not include any information to be evaluated) may be included in the 1' margin space. Each page 8 and 1/2 by 11 inch "sheet" shall count as one page. Foldouts for complete spreadsheets and/or organization charts are permissible up to 11" by 17" and shall count as two pages.

Proposal submissions shall be in electronic format, preferably PDF files, however Microsoft Word is also acceptable, submitted by email to the address in Block 8 of SF 33 not later than the date and time specified in Block 9 of SF 33 (See FAR 15.208(b)(1)(i)). File names shall follow the naming convention below:

First Part	= Abbreviated Offeror Name, such as "ABCInc"
Second Part	= "-Vol1-" or "-Vol2-"
Third Part	= Abbreviated Section Name, such as "MgtPlan", "PWS",
Fourth Part	= "-OptN" (replace N with an option number if there is a need to distinguish among options)

Responsive file names would be "ABCInc\_Vol2.pdf" and  
"ABCInc-Vol1-Solution-Opt1.pdf"

## **L.9 PROPOSAL CONTENT**

### **L.9.1 General**

Offerors are cautioned that the quality of their proposal and adherence to solicitation response requirements and/or restrictions are considered reflective of the manner in which the Offeror could be expected to conduct FPDS-NG business and will be given due consideration throughout the evaluation process.

Offerors are cautioned that failure to provide all the required information may make the offer non-responsive and may result in elimination of the Offeror from further consideration for award.

### **L.9.2 Volume I -Technical Proposal**

Volume 1 shall consist of the following sections:

- Technical Solution
- Program Management
- Corporate Past Performance and Experience

- Staffing

This part of the proposal shall, at a minimum, consist of the sections described below:

Volume #	Section	Topics
I	1. Technical Solution	Technical Solution and Performance Work Statement  Change Dissemination Method
I	2. Program Management	Corporate Commitment  Configuration Management Plan  Data Management  Risk and Security  Quality Assurance Plan  Operations and Maintenance  Schedule
I	3. Corporate Experience	Relevant Experience  Past Performance
I	4. Staffing	Key Personnel  Staffing Approach

### **L.9.2.1 Technical Solution**

The offeror shall describe its solution and the technical approach for achieving the Statement of Objectives in Section C.

For development activities, the offeror shall describe its approach to defining, documenting, implementing, and verifying the detailed requirements.

For operational activities, the offeror shall describe its approach to defining, implementing, measuring quality, and improving the appropriate processes. This is important for helpdesk functions as well as designing, deploying, monitoring, tuning, and enhancing the system to ensure that it achieves or exceeds performance requirements.

**Completeness of Solution:** Describe how a non-proprietary, open standards based system that meets the government's needs will be provided. State the breadth of hardware platforms and operating system FPDS-NG will be able to run on. Define COTS products options that are available (describe the flexibility in switching products). State what the Government may be REQUIRED to purchase or license (even if "free") in order to continue operations. State which standards (ANSI, IEEE, ISO, etc.) will be used in the proposed solution.

Describe the methods that will be used to ensure the requirements of Section 508 are identified and met.

Describe what "best practices" you will use to meet the security requirements.

Describe the technologies and methods that will be used to meet the system availability requirement.

Describe how the offeror will prevent and recover from data compromise.

**Alternatives:** The offeror may propose alternatives to Section B. Supplies or Services and Prices/Cost and Section C. Statement of Objectives. Describe the difference between the Government's stated requirement and the proposed alternative. State why it is beneficial for the Government.

**Performance Work Statement (PWS):** The offeror shall include a PWS with its proposal that addresses the Statement of Objectives (SOO) in Section C. The offeror shall provide a cross-reference matrix that maps the SOO Functional Requirements to its PWS.

**Change Dissemination Method:** Describe the method for dissemination and management of changes to agencies for complete and accurate reporting of data. Discuss specifically the technologies that will be used in a machine-to-machine environment that will allow the incorporation of data and/or validation changes in agency procurement systems within 30 days of definition of the change.

**Compliance with GSA Technical Architecture Standards:** The proposals will include a statement that the solution is compliant with GSA's Technical Architecture Standards, or, they will identify areas where a waiver is required.

#### **L.9.2.2 Program Management**

**Level of Corporate Commitment:** The offeror shall describe its organization for performing the requirements of the contract. The offeror shall describe where the FPDS-NG organization's reporting structure fits within the corporate structure, how corporate resources will be applied to the project, and lines of communication up the management chain for problem resolution.

The offeror shall identify subcontractors and the work they will perform.

The offeror shall describe the organizational interfaces with the government and how it will ensure that the government has insight into contract activities.

The offeror shall describe how the organization will evolve to support the development and operation and maintenance phases of the project.

The offeror should describe how managers keep track of performance.

Offerors shall address what they think are the risky aspects of this project. Identify risks that are cost drivers. State approaches that will be used to mitigate risk.

**Schedule:** The GSA has a goal to enable agencies to begin using FPDS-NG at the beginning of FY 2004 (1 Oct 2003). The offeror shall provide a schedule showing milestones, including the critical path, and dependencies leading to the successful deployment of FPDS-NG to meet the Government's goal.

The offeror shall describe its processes and performance metrics and measures for ensuring that schedules are met.

**Risk and Security Assessment and Management:** Describe the procedures and controls that will be applied for this project.

**Configuration Management:** Describe how the configuration management system proposed will ensure FPDS-NG will be adaptable with respect to changing software and hardware offerings, telecommunications standards, and data requirements.

The offeror shall describe its approach to ensuring that system documentation is thorough, accurate, and communicates effectively. List the documentation that will be provided. Describe the level of detail and the methods that will be used to ensure it is sufficient to operate and use the system.

The offeror shall describe how the XML proposed will be compatible with (and preferably based on) existing standardized schemas and efforts to develop such schemas. Describe how the XML will be part of the ongoing effort to establish standards rather than a dead end effort. State the standard or methodology will be used for the machine-to-machine exchange between FPDS-NG systems and the customer agencies' systems. How will the schemas be published?

**Quality Assurance Plan (QAP):** Offerors shall propose a Quality Assurance Plan (QAP) that includes a Acceptable Quality Level Matrix. See the description of these documents at steps 4 and 5 of the Seven Steps to Performance-Based Services Acquisition at <http://oamweb.osc.doc.gov/pbsc/home.html>. The plan must specify all items that will be monitored, even if there is no incentive associated with a particular item.

The Acceptable Quality Level Matrix shall include performance metrics and measures, target performance levels, methods of surveillance, and incentives (performance, schedule, etc.). The Acceptable Quality Level Matrix shall address all functional requirements for which there are incentives proposed.

The offeror shall describe how problems are identified, tracked, escalated, if needed, and resolved; how resolutions are fed back to the appropriate entities; and how feedback is used to improve contract performance.

The offeror shall state the methods that will be used for managing all aspects of this project. Indicate certification levels for SEI CMM and/or ISO certification.

**Data Management:** Describe the data management methods proposed. Include the methods proposed for incorporating the existing 20+ years of FPDS data.

**Operations and Maintenance:** Describe the approach for operations and maintenance of the proposed solution. Describe the management methods that will be used to achieve the highest performance levels.

### **L.9.2.3 Corporate Past Performance and Experience**

Performance information will be used for both responsibility determinations and for technical evaluation. The Government will focus on each project's similarity to the FPDS-NG requirement, on contractor's ability to meet cost and schedule requirements while maintaining

product/service quality, and on the contractor's success in resolving project problems.

Each offeror shall submit three past experience summaries for themselves and may submit one past experience summary for each subcontractor. If the offeror has no relevant corporate or organizational past performance, the offeror may substitute past performance of a predecessor company or of the offeror's management or proposed key personnel who have relevant experience.

Provide a list of any contracts terminated for convenience or terminated for default within the last three years. Also list any contracts for which the customer did not exercise an option to continue the contract within the last three years.

Past experience summaries shall be for projects completed in the last three years or currently in process, which are of similar size, scope, complexity, contract type, or, in any way, are relevant to the effort required by this solicitation. Contracts listed may include those entered into by the Federal Government, agencies of State and local governments and commercial customers. Contracts with the parent or an affiliate of the offeror may not be used.

Include the following information for each project:

A. Administrative Data

1. Name of the contracting activity
2. Program title or product name
3. Contract number
4. Contract type
5. Procuring contracting officer and telephone and fax number and e-mail address (if known)
6. Administrative contracting officer, if different from above, and telephone and fax number and e-mail address (if known)
7. Program manager, COTR or technical officer and telephone and fax number and e-mail address (if known)
8. If any of the listed contracts are award-fee or incentive contracts, include a table showing fees awarded and the minimum and maximum available fee for each period.

B. Relevance

1. Brief synopsis of work performed
2. Brief discussion of how the work performed is relevant to this solicitation
3. Brief, specific examples of the offeror's high quality performance

C. Adherence to cost and schedule

1. Initial and actual period of performance, including all option periods. Include explanations of schedule delays or examples of beating deadlines.
2. Contract Value:
  - a. Initial projected total contract amount including all options
  - b. Final or current projected total contract amount including all options

D. The offeror should provide information on problems encountered on each contracts and corrective actions taken to resolve those problems.

E. The offeror shall describe how the experience gained on these projects will be made available to accomplish this project.

#### **L.9.2.4 Staffing**

**Key Personnel:** The offeror shall identify key positions and the personnel who will fill them.

The offeror shall provide resumes for key personnel.

The offeror shall use key personnel in the oral presentation of their proposals, if oral presentations should be required.

**Staffing Approach:** Describe the proposed staffing to include the numbers and expertise and their relevance to the solution both initially and over the life of the contract.

#### **L.9.3 Volume II- Business Proposal**

Volume II shall contain the following:

##### **L.9.3.1 Standard Form 33**

The proposal shall be accompanied by a completed copy of SF 33, signed by an individual authorized to commit the company.

##### **L.9.3.2 Representations and Certifications**

The proposal shall be accompanied by a completed Section K, Representations and Certifications, with appropriate clauses/provisions filled-in.

##### **L.9.3.3 Exception To Solicitation Terms And Conditions**

The offeror must state in their business proposal any exceptions taken to the terms and conditions of the solicitation. For each exception, the offeror shall identify the term or condition, state the reason for the exception, and provide any other information concerning the exception.

The Offeror shall identify and explain any exceptions or deviations taken or conditional assumptions made with respect to the requirements of this solicitation. Any exceptions or deviations taken or conditional assumptions made must contain sufficient amplification and justification to permit evaluation. Specifically, the Offeror shall summarize each technical or business and other exception taken elsewhere and provide specific cross-references to its full discussion. Also, the benefit to the Government shall be explained for each exception or deviation taken, or conditional assumption made. Such exceptions, deviations, or conditional assumptions will not, of themselves, automatically cause a proposal to be termed unacceptable. However, a large number of exceptions, or one or more significant exceptions not providing benefit to the Government may result in rejection of the offer as unacceptable.

#### **L.9.3.4 Subcontracting Plan**

Subcontracting Plan (applicable only to large businesses that intend to award subcontracts) in accordance with FAR 52.219-9.

The small business program subcontracting goals for this solicitation are:

Small Business	20%
Small Disadvantaged	9%
Small Women-Owned	7%
HUBZone Certified	7%
Small Veteran-Owned	2%

#### **L.9.3.5 Past Performance Questionnaires**

Offeror's shall select three (3) projects and provide the customer survey questionnaire form in Section J to the CO or COTR who will serve as the offeror's reference. Offerors shall solicit one (and only one) response for each project.

The reference will provide their view of Offeror's past performance by answering the questions. The reference will return the completed questionnaire to the government. Offeror's should work with reference to ensure that the questionnaires are completed and returned to the

government at the address specified in Block 7 of SF 33 not later than the date and time specified in Block 9 of SF 33.

#### **L.9.3.6 Price Proposal**

Price Proposal with sufficient detail to support the proposed prices and to permit the Government to determine that proposed prices are fair and reasonable. Offerors may propose, in the price proposal, a milestone schedule for which progress payments may be made. Prices should include a not-to-exceed amount for travel.

#### **L.9.3.7 Business Plan**

Describe the strategy for business operations. At the end of contract performance period, state specifically what the Government will own vs. what the contractor will own.

#### **L.9.3.8 Incentive Plan**

Describe the proposed performance metrics and measurements and the incentives associated with each. Incentives should be tied to the Government's key objectives: rapid adoption of the machine-to-machine interface by agencies in order to reduce total cost Government-wide, shortened lag time between Signed Date and data availability for reports and queries, and data quality.

### **L.10 Oral Presentations**

The Government may invite offerors for oral presentations during the technical evaluations and prior to the competitive range determination. At the time the offeror is notified it is to conduct an oral presentation, the Government will provide specific guidance on the expected content. The Offeror's team making the presentation and responding to questions must consist of key personnel who will work on the contract.

### **L.11 Negotiations**

The Government may conduct negotiations with offerors whose proposals are determined to be within the competitive range. However, offerors are cautioned to submit proposals on the most favorable basis, as to price, delivery, or time of completion and other factors, since the government may elect to make an award without further discussions or negotiations.

**L12 Operational Capability Demonstration**

If the apparent successful offeror proposes a commercial off the shelf product, the offeror must conduct an operational capability demonstration prior to award. The demonstration will be a factor in the Government's final decision for a best-value award.

**L.13 Analysis of Proposals by Non-Government Personnel**

The offer is advised that non-government personnel may assist during the Government's evaluation of proposals. These persons will only be authorized access to those portions of the proposals that are necessary to enable them to provide specific advice on specialized matters or particular problems.

**L.14 Facsimile Submissions, Modifications, or Withdrawals of Proposals**

Facsimile submissions, modifications, or withdrawals of proposals are not permitted and the Contracting Office will disregard if received.

## **M. EVALUATION FACTORS FOR AWARD**

### **M.1 BASIS FOR AWARD**

The Government will make an award to the responsible Offeror whose responsive proposal represents the best value to the Government, price and other factors considered, in accordance with the evaluation criteria below. The best value tradeoff process described in FAR 15.101-1 permits tradeoffs among cost or price and non-cost factors and allows the Government to accept other than the lowest priced proposal or the highest technically rated proposal.

To be responsive the Offeror must address all the requirements of the solicitation and must include all information specifically required in all sections of the solicitation. The offeror must state how it will meet the requirements; repeating back the words of the RFP is not acceptable.

The Government's contract budget for development, implementation, cost incentives, and performance incentives is \$5.6 million; therefore offerors should strive to offer the best technical solution within the \$5.6 million budget amount. Price/cost evaluation will focus heavily on the realism of the proposed price/cost for the scope and nature of the solution/services proposed.

### **M.2 EVALUATION CRITERIA**

The contract award will be based on evaluation of the following factors:

- Technical Solution
- Program Management
- Corporate Past Performance and Experience
- Staffing
- Price
- Incentive Plan

#### **M.2.1 Relative Importance of Evaluation Criteria**

The technical evaluation and other factors are significantly more important than the price evaluation. However, if technical evaluations are close, the price evaluation will take on more importance.

Among the technical evaluation factors, Technical Solution and Program Management are most important and relatively equal to each other. Past Experience is next, then Staffing.

Where applicable, information obtained in the oral presentation is of equal importance to the written document submitted. In the event that information provided during the oral presentation conflicts with the Offeror's written proposal, the written proposal will take precedence.

## **M.2.2 Technical**

Both a merit rating and a confidence rating will be assigned. The merit rating and the confidence rating are of equal importance.

### **M.2.2.1 Technical Solution**

The Technical Solution will be evaluated for the following:

- Completeness, applicability, and effectiveness for meeting the objectives of the SOO functional requirements.
- For COTS solutions, the degree of customization required.
- Change Dissemination

Completeness, applicability, and effectiveness are significantly more important than change dissemination.

Merit Ratings: The following adjectival ratings will be used to rate the merit portion of the sub-factors in the Technical Solution factor:

- Outstanding: Greatly exceeds the minimum performance or capability requirements of any evaluation sub-factor in a way beneficial to the Government. There are no significant weaknesses. Those aspects of a factor or sub-factor resulting in an "Outstanding" rating may be incorporated into the resulting contract.
- Excellent: Exceeds the minimum performance or capability requirements of any evaluation sub-factors in a way beneficial to the Government. There are no significant weaknesses. Those aspects of a factor or sub-factor resulting in an "Excellent" rating may be incorporated into the resulting contract.
- Acceptable: Meets the minimum performance or capability requirements of any evaluation sub-factors. There may be minor but correctable weaknesses.
- Marginal: May meet the performance or capability requirements of any evaluation sub-factors. There are apparent or moderate weaknesses that are correctable.
- Unacceptable: Fails to meet the performance or capability requirements of any evaluation sub-factors. There are unacceptable weaknesses.

Confidence Ratings: The following confidence ratings will be used to rate the confidence portion of the sub-factors in the Technical Solution factor:

- High Confidence: The Offeror's understanding of the project and the soundness of approach are such that virtually no doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably significantly exceed the threshold performance requirements.
- Significant Confidence: The Offeror's understanding of the project and the soundness of approach are such that little doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably exceed the threshold performance requirements.
- Confidence: The Offeror's understanding of the project and the soundness of approach are such that the Offeror can successfully complete the project at the threshold level within the budget and schedule.
- Little Confidence: The Offeror's understanding of the project and soundness of approach are such that some doubt exists that the Offeror can successfully complete the project at the threshold level within the budget or within schedule. Changes to the Offeror's existing approach may be necessary in order to achieve project requirements within the budget.
- No Confidence: The Offeror's understanding of the project and soundness of approach are such that extreme doubt exists that the Offeror can successfully complete the project at the threshold level within the budget, or within schedule, accordingly successful performance is doubtful.

### **M.2. 2.2 Program Management**

The Offeror's Program Management will be evaluated for the following:

- The effectiveness of the Offeror's organization with respect to application of corporate resources, communication within the organization and with the Government, and effectiveness in meeting the FPDS-NG requirements
- The Offeror's proposed schedule and milestones for meeting the goals of the FPDS-NG project.
- Risk and Security
- Configuration Management
- Quality Assurance Plan
- Data Management
- Operation and Maintenance
- Subcontracts, Subcontract Management, and Socio-Economic Goals – subcontracting plan establishes an extensive outreach

program that ensures successful achievement of the proposed goals and plan

All sub-factors are of equal importance.

Confidence Ratings: The following confidence ratings will be used to rate the sub-factors in the Program Management factor:

- High Confidence: The Offeror's understanding of the project and the soundness of management approach are such that virtually no doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably significantly exceed the threshold performance requirements.
- Significant Confidence: The Offeror's understanding of the project and the soundness of management approach are such that little doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably exceed the threshold performance requirements.
- Confidence: The Offeror's understanding of the project and the soundness of management approach are such that the Offeror can successfully complete the project at the threshold level within the budget and schedule.
- Little Confidence: The Offeror's understanding of the project and soundness of management approach are such that some doubt exists that the Offeror can successfully complete the project at the threshold level within the budget or within schedule. Changes to the Offeror's existing approach may be necessary in order to achieve project requirements within the budget.
- No Confidence: The Offeror's understanding of the project and soundness of management approach are such that extreme doubt exists that the Offeror can successfully complete the project at the threshold level within the budget, or within schedule, accordingly successful performance is doubtful.

### **M.2.2.3 Corporate Past Performance and Experience**

Corporate past performance and experience will be evaluated for the following:

- Relevancy and applicability to the FPDS-NG requirement
- Offeror's ability to maintain control of cost, schedule, and quality targets
- Responsiveness and success in resolving project issues
- Providing Performance Based solutions
- Level of Customer satisfaction

The Government's evaluation will be made by checks with Offeror provided references, Federal past performance data, and users known to the evaluation team.

All sub-factors are of equal importance.

Merit Ratings: The following adjectival ratings will be used to rate the merit portion of the sub-factors in the Technical Solution factor:

- Outstanding: Greatly exceeds the minimum performance or capability requirements of any evaluation sub-factor in a way beneficial to the Government. There are no significant weaknesses. Those aspects of a factor or sub-factor resulting in an "Outstanding" rating may be incorporated into the resulting contract.
- Excellent: Exceeds the minimum performance or capability requirements of any evaluation sub-factors in a way beneficial to the Government. There are no significant weaknesses. Those aspects of a factor or sub-factor resulting in an "Excellent" rating may be incorporated into the resulting contract.
- Acceptable: Meets the minimum performance or capability requirements of any evaluation sub-factors. There may be minor but correctable weaknesses.
- Marginal: May meet the performance or capability requirements of any evaluation sub-factors. There are apparent or moderate weaknesses that are correctable.
- Unacceptable: Fails to meet the performance or capability requirements of any evaluation sub-factors. There are unacceptable weaknesses.

Confidence Ratings: The following confidence ratings will be used to rate the confidence portion of the sub-factors in the Technical Solution factor:

- High Confidence: The Offeror's understanding of the project and the soundness of approach are such that virtually no doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably significantly exceed the threshold performance requirements.
- Significant Confidence: The Offeror's understanding of the project and the soundness of approach are such that little doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably exceed the threshold performance requirements.
- Confidence: The Offeror's understanding of the project and the soundness of approach are such that the Offeror can successfully

complete the project at the threshold level within the budget and schedule.

- Little Confidence: The Offeror's understanding of the project and soundness of approach are such that some doubt exists that the Offeror can successfully complete the project at the threshold level within the budget or within schedule. Changes to the Offeror's existing approach may be necessary in order to achieve project requirements within the budget.
- No Confidence: The Offeror's understanding of the project and soundness of approach are such that extreme doubt exists that the Offeror can successfully complete the project at the threshold level within the budget, or within schedule, accordingly successful performance is doubtful.

#### **M.2.2.4 Staffing**

Staffing will be evaluated for the following:

- Positions designated as key
- Demonstrated effectiveness of key personnel in managing projects similar in size and complexity
- Relevance of staffing proposed

All sub-factors are of equal importance.

Confidence Ratings: The following confidence ratings will be used to rate the sub-factors in the Staffing factor:

- High Confidence: The Offeror's understanding of the project and proposed staffing are such that virtually no doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably significantly exceed the threshold performance requirements.
- Significant Confidence: The Offeror's understanding of the project and proposed staffing are such that little doubt exists that the Offeror can successfully complete the required effort within the budget and schedule, and will probably exceed the threshold performance requirements.
- Confidence: The Offeror's understanding of the project and proposed staffing are such that the Offeror can successfully complete the project at the threshold level within the budget and schedule.
- Little Confidence: The Offeror's understanding of the project and proposed staffing are such that some doubt exists that the Offeror can successfully complete the project at the threshold level within

- the budget or within schedule. Changes to the Offeror's existing approach may be necessary in order to achieve project requirements within the budget.
- No Confidence: The Offeror's understanding of the project and proposed staffing are such that extreme doubt exists that the Offeror can successfully complete the project at the threshold level within the budget, or within schedule, accordingly successful performance is doubtful.

### **M.2.3 Business**

#### **M.2.3.1 Business Plan**

The government will evaluate the effectiveness of the business plan to meet program objectives. The ownership of the proposed solution will be evaluated for the best value for the taxpayer.

#### **M.2.3.2 Price**

The Offeror's cost/price proposal will be evaluated to determine if it is realistic, complete, and reasonable. Realism is evaluated by assessing the compatibility of the proposed costs with the proposed scope and effort (Most Probably Cost). Completeness is evaluated by assessing the level of detail the Offeror provided in its cost submission for all RFP requirements in the statement of work and technical documents and to ensure the proposed price is inclusive of all requirements. Reasonableness is evaluated by comparing the Offeror's proposed prices to prices for same or similar work.

The cost/price evaluation will be based on the entire project. Offers that total in excess of \$5,600,000 for development and implementation (Ceiling Cost) are unacceptable and that offer will be eliminated from further evaluation.

Unrealistically low proposed cost or price estimates may be grounds for eliminating a proposal from competition, either on the basis that the Offeror does not understand the requirements or the Offeror has made an unrealistic offer.

Price will be evaluated for the following: total life cycle for development, the base operation and maintenance period, and award-term periods.

**M.2.4 Incentive Plan**

The government will evaluate the incentive plan; areas proposed for incentives, metrics proposed for the incentives, and their overall importance to improve system performance and schedule.
